- BMI function
- Zero/hold/print/kg/lb
- Automatic re-weigh
- Updatable firmware
- Ports: RS232 and USB

Product Code

- SCWS-H150-00-5

Why Buy

The Physician scale features a lightweight, slender and multifunctional design with patented technology. User BMI is calculated automatically after entering the patient's height into the device and their weight is digitally displayed on the scale's large LCD screen. The scale is constructed with an aluminium cast coat and robust design, featuring a large platform and silicone mat for additional patient comfort and safety. This model also includes a height adjustable rod allowing the scale to be used for measuring both children and adults.
