Selective Pallet Racking

- Selective Pallet Racking is an effective and time saving solution for storing pallets and large items; ensuring easy access to all stock at any given time increasing productivity and giving a fast return on your investment.
- The ability of Orbit Selective Pallet Racking to be configured as Single or Double Sided; combined with the wide range of heights, widths and depths available, enables the system to be tailored to maximise your storage space.
- Orbit Selective Pallet Racking is designed, engineered and certified to comply with the relevant international standards; including Australian Standard AS4084.

**Note: Capacities are
listed as kgs per level.**

Frame Protectors offer increased safety by preventing accidental forklift damage to uprights; reducing down time and repairs.

Mesh Backing can be added to provide an effective safety barrier between pallet storage and general warehouse operation zones.

The beam retaining pin system provides greater safety ensuring beams are retained correctly; avoiding accidental dislodgement.

Premium Blaze Blue/ Safety Orange powder coat finish provides increased safety with exceptional visibility enhancement; being suited to all indoor applications.

Hot Dipped Galvanised finish is also available to provide ultimate protection from the elements when installed outdoors.

Alternative configurations:

Double Deep

VNA (Narrow Aisle)

Mesh Decks

Timber Shelves
