

# ProCure 2

THE MOST ADVANCED POST-CURING SYSTEM

## **FAST**

Cure many parts in 2 minutes  
with custom UVA light engine

## **POWERFUL**

25x more light power intensity  
than other curing products

## **SIMPLE**

User-friendly and ergonomic,  
designed for the needs of dentistry

# State of the Art

ProCure 2 is fast. Fast enough to enable true chairside workflows with SprintRay 3D printing. And thanks to its custom light engine, it delivers heat instantaneously, no warmup required. Welcome to chairside.

## Leading by Design

Engineered from scratch to meet our rigorous chairside requirements, the custom UVA light engine is the heart of ProCure 2. Its unique wishbone design delivers 360-degrees of curing coverage.

# 25x Light Intensity

## 25x

### More Powerful

Thanks to its custom wishbone curing engine, ProCure 2 can completely post-cure 3D printed dental parts in just a few minutes using both light and heat for optimal mechanical properties.

### Instant Heating

Because ProCure 2 delivers concentrated 385nm light, it generates heat locally on each part. This eliminates the need for ambient heating, greatly reducing overall cure times.

### Active Thermodynamics

Outstanding engineering makes sure that ProCure 2 is always at the right temperature. Active and passive thermodynamics work in perfect harmony to keep the exterior cool to the touch.

### Chamber Scanning

The light engine in ProCure 2 gently scans across the curing chamber to make sure that every part receives an even, thorough post-curing.

## 12x Faster Occlusal Guards

4 Min ProCure 2

65 Min ProCure 1

## 10x Faster Dental Models

2 Min ProCure 2

20 Min ProCure 1

## 10x Faster Surgical Guides

2 Min ProCure 2

20 Min ProCure 1

## 13x Faster Full Arch Implant Dentures

5 Min ProCure 2

65 Min ProCure 1

## 15x Faster Indirect Bonding Trays

2 Min ProCure 2

35 Min ProCure 1

## 10x Faster Try-in Dentures

2 Min ProCure 2

20 Min ProCure 1

Estimated time with ProCure 2 and SprintRay resins. Actual results vary based on number of models, resin brand, environment, and other settings.

### **One-Touch Chairside Curing**

ProCure 2 is precisely engineered to extract the best mechanical properties from your 3D prints. Its preprogrammed resin profiles precisely deliver the right amount of heat and light.

When used in tandem with Pro S 3D printers and Pro Wash/Dry, you can go from scan to delivery in less than an hour.
