

# CATTANI COMPRESSORS

## AC200 2-3 CHAIRS

- Clean, Dry, Oil-Free Air
- 7-year Parts and Labour Warranty
- Outstanding Performance and Reliability
- Sound Reduction Options

**Reliable:** Robust Cattani compressors keep practices running, delivering clean, dry, oil-free air with such a level of reliability that we give it a 7-year warranty. The AC200, for 2-3 chairs, is easy to install and low maintenance.

**Quality Protection:** The tanks in all Cattani compressors have a patented silver ion coating that delivers highly effective protection against microbes such as bacteria and mould. Permanent antimicrobial protection is assured. Internal components are also specially coated to reduce mechanical wear and tear.

**Sound Reduction:** If the compressor is in close proximity to treatment and staff rooms, Cattani offers the AC200Q, which significantly reduces noise output.

## PERFORMANCE AND RELIABILITY

Cattani Australasia is a family company that stands for outstanding quality, performance and service. We have more than 30 years' experience in the field of dental air technology, and are proud to work with what we believe are the best compressors and suction systems in the business.

The confidence we have in our compressors' superior design, mechanical precision and robust components means we have no hesitation in backing them with an industry-leading 7-year parts and labour warranty.

### AC200

|                              |                              |
|------------------------------|------------------------------|
| NO. OF CHAIRS                | 2-3                          |
| POWER                        | 1~ 230V 50Hz 7.7A 1.2kW      |
| HEIGHT MM                    | 720                          |
| WIDTH MM                     | 600                          |
| DEPTH MM                     | 470                          |
| WEIGHT KG                    | 54                           |
| SOUND OUTPUT dB(A)           | 71                           |
| MAX AIR FLOW AT 5 BAR NL/min | 160                          |
| TANK SIZE (LITRES)           | 30                           |

### AC200Q

|                              |                              |
|------------------------------|------------------------------|
| NO. OF CHAIRS                | 2-3                          |
| POWER                        | 1~ 230V 50Hz 7.7A 1.2kW      |
| HEIGHT MM                    | 860                          |
| WIDTH MM                     | 660                          |
| DEPTH MM                     | 510                          |
| WEIGHT KG                    | 63.5                         |
| SOUND OUTPUT dB(A)           | 63                           |
| MAX AIR FLOW AT 5 BAR NL/min | 160                          |
| TANK SIZE (LITRES)           | 30                           |
| PRODUCT CODE                 | [AU/NZ] K-AC200Q, [IT] 13244 |

### ACOUSTIC COVER

H = 887 mm  
W = 870 mm  
D = 700 mm

Reduces noise of AC200 compressor to 53.3 dB(A)

**Product code:**  
K-010800

### VENTILATION KITS

Recommendations – 100 m3/h for each kW of equipment installed. 250 & 500 kits include fan, ducting and vent cover. 800 includes fan only.

**Product codes:**  
250 – L-TD2500-KIT  
500 – L-TD5000-150  
800 – L-TD8000

### HEPA H14 FILTER

For medical quality air. Non-autoclavable.

**Product code:**  
K-168429

### DRYER PRE FILTER FOR COMPRESSOR (FOR HUMID CLIMATES)

A dryer pre filter is recommended for humid climates. This additional moisture trap is fitted prior to the drying column. The pre filter has proven extremely effective and reliable in increasing the efficiency of the drying system by removing bulk condensation from the air prior to entering the drying column. Can be retro-fitted.

**Product code:** K-E10000
