

Electric Towing Tug – 1.5 Tonne Capacity with Tow Bar & Front Towing Hitch

The KMT-T15 Electric Towing Tug is designed to safely and efficiently tow loads up to 1500kg in warehouses, airports, workshops, factories and other industrial environments. Compact and highly manoeuvrable, it is ideal for moving trailers, boats, caravans, light aircraft, vehicles and other wheeled loads where space is limited.

Featuring an adjustable tow bar and front towing hitch, the KMT-T15 can both pull and push loads with minimal operator effort. Easy-to-reach controls, battery level gauge and battery-powered operation provide smooth, reliable performance throughout use.

Features

- 1500kg towing capacity.
- Adjustable rear tow bar and front towing hitch included.
- Suitable for pulling and pushing wheeled loads.
- Battery-powered 24V DC drive system.
- Easy-to-use steering handle with conveniently located controls.
- Battery level gauge.
- Large drive tyres for improved traction.
- Heavy-duty steel construction.
- Durable powder-coated finish.
- Compact design for confined work areas.
- Batteries and battery charger included.

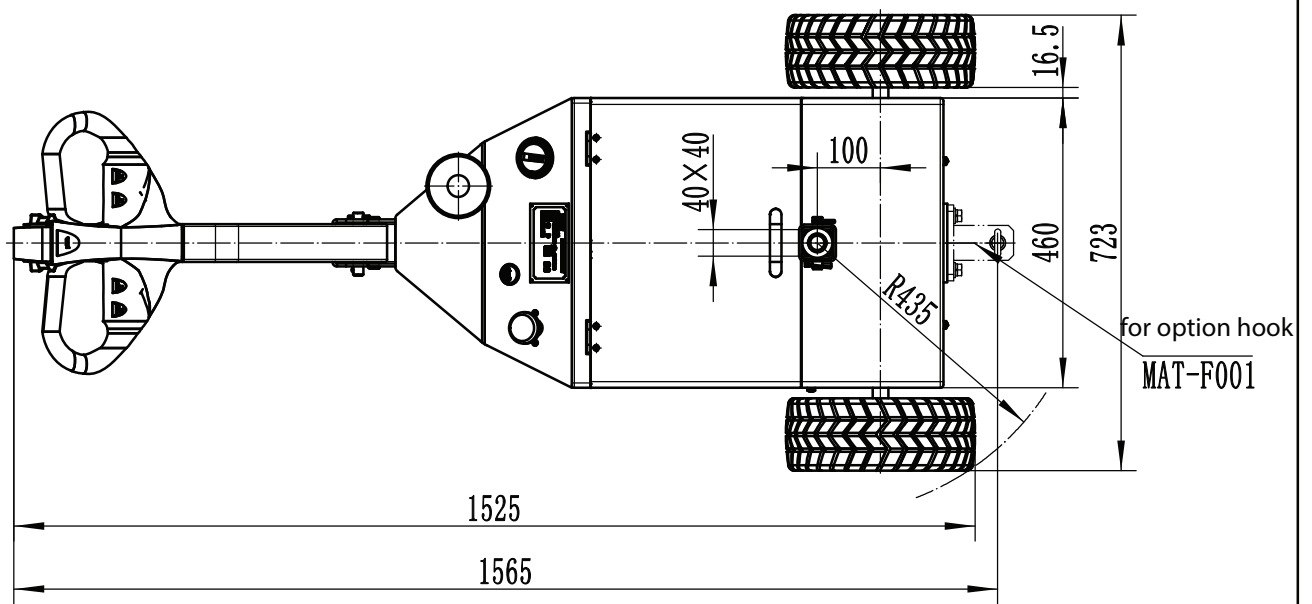

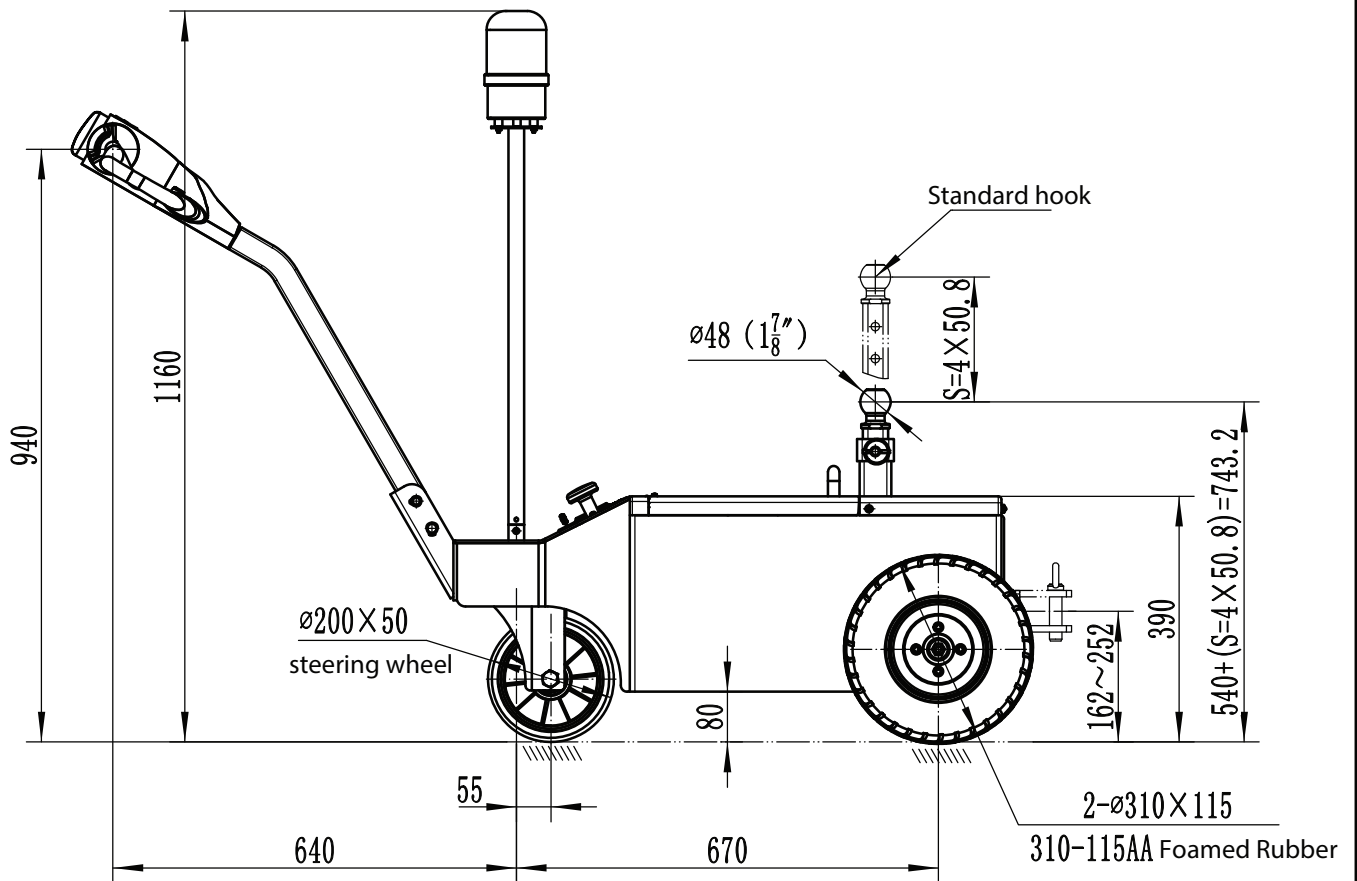

Specifications

Model	KMT-T15
