RS PRO Cat5 RJ45 Female Coupler, STP

RS Stock No.: 340-9630

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO, this Cat5e RJ45 coupler allows for versatile cable management in a home or workplace network. The in-line female coupler is able to connect two ethernet patch leads, allowing more distance and freedom from wall sockets or connecting devices. Compact and robust, the socket to socket RJ45 adapter also features gold plated contacts for assured connectivity. It is compatible with shielded twisted pair cables (STP) to maintain a level of protection against signal interference
