# DUST CONTROL DC2900C ECO VACUUM

“Lightweight  
and portable”

## DUST EXTRACTION MADE EASY!

The DC 2900 is our most popular dust extractor. It is suitable for vacuum cleaning and source extraction from handheld power tools (with up to 5" suction casings) and small table saws.

The DC 2900 has a sturdy steel chassis with big wheels, but is still lightweight and portable. The DC 2900 can be ordered with a plastic bag (DC 2900c) or with a steel container (DC 2900a). Collection in a steel container makes the DC 2900a ideal for use with sharp items such as metal chips.

DC 2900 Autostart: Connect the subject electric tool to the electrical outlet on unit. Set the selector switch to the AUTO position. The unit will start automatically when the subject tool is started.

The DC 2900c Antistatic is delivered with the following hose set:

- ☑ Antistatic hose set Ø 1.5"/38 mm x 15'/5m (Part No 2012+2108+2114)

## INCLUSIONS

The DC 2900c is delivered with the following:

- ☑ Suction hose (Ø 38) 5 m (Part No 2105)
