

# CARETEK Rally Emergency Trolley

Built to comply with international standards, the Caretek rally accident and emergency trolley includes German made Power-Packer hydraulic height adjustment. The back rest and tilt control are manually operated with gas assist. It also includes

integrated fold down 3/4 length stainless steel side rails.

The undercarriage has an ABS cover which has integrated storage space.

It is also suitable for use during x-rays and includes an x-ray cassette holder.

The Tente 8" Castors are central locking with pedals at the head and foot end.
