

## GUEST PAGING SYSTEM

The Saturn Paging System is a state of the art guest paging system designed to offer a premium solution to all your customer paging needs. An elegant, stylish, pager, the Saturn System helps you eliminate cold food complaints and helps manage the flow of your establishment.

## CONVENIENT

Perfect for bistros, cafes, chemists, the Saturn Paging System has got you covered. Saturn Paging Systems have been used successfully across many different industries, healthcare, hotels, resorts, automotive, and much, much more.

## POWER

The Saturn Paging System removes the need for loud calling out of order names for food and drinks, and with a 2 day battery life, a long range, and a stylish yet robust exterior, the Saturn Paging System is a must have for many different industries.

## COMPACT

Stackable up to 15 on a charging base, controlled by a simple transmitter or multiple transmitters, Saturn Paging System can also be integrated with many Point of Sale Systems.

## KEY FEATURES

- A large, 1km coverage area means that the Saturn can service an extensive area.
- Clear and simple User Interface.
- The elegant, stylish design doesn't compromise on reliability, providing a stable connection.
- A Unique System Code helps to prevent interference.
