

# P5W NON-RETRACTABLE FIFTH WHEEL

*Pictured (from left to right): Hand controller (vertical); Hand controller (horizontal); Retractable fifth wheel (drive wheel); Slide-out battery carriage.*

The Powered Fifth Wheel (P5W) is a retrofittable solution for converting your manually pushed trolleys into powered ones.

The kit consists of a powerful non-retractable drive wheel (the fifth wheel), a hand control unit (vertical or horizontal—depending on your requirements), a slide-out battery case and a charger.

Controlled with an ergonomically designed control grip for a natural walking posture, the Powered Fifth Wheel works with your trolley's other four wheels to help you move heavy loads safely and efficiently.

*A trolley fitted with the non-retractable fifth wheel, battery carriage and horizontal control unit*

<sup>1</sup> International chargers are also available. Replace "AU" at the end of the order code with "US", "EU" or "UK". For example EDCHARGER7AhUS.

## Typical applications

A retrofittable solution for converting trolleys into powered ones.

## Features

<b>Load capacity</b>	Move up to 400 kg on flat ground
<b>Max. speed</b>	Up to 4.5 km/hour
<b>Speed mode</b>	Three speed control with forward, reverse and emergency stop.
<b>Usability</b>	<ul style="list-style-type: none"> <li>• Simple control unit (mounted vertically or horizontally—adaptable to suit 20-52 mm tube).</li> <li>• Quiet, smooth operation.</li> </ul>
<b>Dimensions (L/W/H)</b>	• Drive wheel: 511/285/150-300 mm
<b>Battery</b>	Two 33Ah MK-Gel batteries (assembled within slide-out carriage) and 7Ah charger.

## Safety features

Emergency stop button.
