

FEATURES

- Leaves no residue meaning you are left with a smooth surface
- Non-aggressive so does not destroy your parts
- Removes flux residues from PCBs
- Safe on most plastics

RS PRO 500 ml Tin Isopropyl Alcohol (IPA) for PCBs

RS Stock No.: 567-890

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Isopropyl Alcohol (IPA) is a fast drying but flammable liquid used in many industrial processes and pharmaceutical applications for cleaning and degreasing. The RS Pro Isopropyl alcohol cleaner can also be known as rubbing alcohol. It is a highly effective, general use solvent for removing dirt and grease from many different materials.

General Specifications

Package Size	500ml
Package Type	Tin
Product Category	IPA Solvent
Appearance	Clear, Colourless Liquid
Miscibility In Water	Complete
Applications	cleaning and removing grease, oil, dust or flux from delicate electronic assemblies

Mechanical Specifications

Density At 20°C	0.79g/ml
Purity	99.7%
Water Content	0.15%max
Flammability	Flammable

Operation Environment Specifications

Boiling Point	82°C
Flash Point	12°C

Approvals

Compliance/Certifications	RoHS Certificate of Compliance
