# ASC EUREKA M6

## INDUSTRIAL RIDE-ON SWEEPER

### EXTREMELY ROBUST

The ASC Eureka M6 extremely robust frame means that this sweeper can be effectively used in a wide range of applications.

A powerful Kubota engine (3 cylinders, 25 hp, liquid cooled) guarantees maximum reliability and benefits from a global assistance network.

The power of the motor and the liquid cooling ensure better overall performance and greater durability.

### EXTREMELY PRODUCTIVE

Hydraulic traction, debris container high dump, brushes, and vacuum fan, mean that the ASC Eureka M6 can clean even the dirtiest floors rapidly, routine maintenance of the machine is also extremely simple, therefore reducing downtime.

In addition, the power supplied by the engine enables a top speed of 12 km/h and 18.720 m<sup>2</sup>/h of hourly productivity.

### EXTREMELY EFFICIENT

The Multipocket Filter® is antistatic, washable, and fitted with an effective automatic filter cleaning system, this feature is important when the operator forgets to activate the shaker manually.

### EXTREMELY MANAGEABLE

The compact dimensions of the ASC Eureka M6 enhance maneuverability in tight spaces. All the wheels are large diameter and facilitate work on uneven surfaces, on slopes or in the presence of obstacles. Furthermore, all the wheels are super elastic to avoid problems with pressure checks or repairs in the case of punctures.

### EXTREMELY EFFICIENT

All the controls are easily reached from the driver's position and are clearly indicated.

### FRONT HIGH DUMP

The hopper is positioned at the front of the machine and can be lifted, via a hydraulic high dump system, to a maximum height of 1.565 mm. The hopper is floating, and self regulates to facilitate the pickup of bulkier debris.

### SIMPLIFIED MAINTENANCE

All the internal mechanical parts of the sweeper are easy access for simple maintenance operations, all the rear, side, and upper panels completely open. The batteries (EB EVOLUTION version) can be changed quickly & simply.

### LPG VERSION

The petrol version (ASC Eureka M6) can also be used with LPG gas, meaning it's possible to work in both interior and exterior environments with the same machine.

### VACUUM CLEANING KIT \*

To fully complete cleaning operations, avoiding left behind debris which is not possible to pick up with a sweeper, Eureka proposes an onboard vacuum cleaning kit.

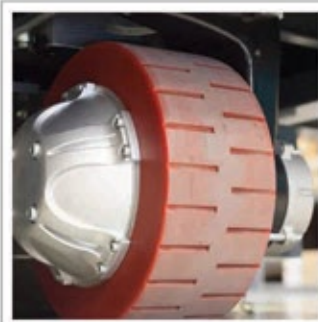

\* Optional

### EB EVOLUTION VERSION

The new battery powered version provides over 4 hours of uptime and minimal noise impact. It introduces additional features, like hydraulic power steering, a system which automatically checks the level of the battery and a new digital display.

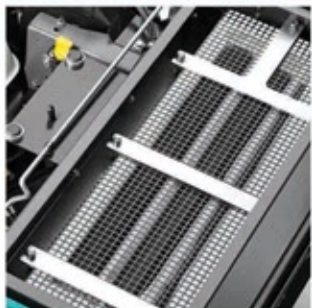

### TOTAL STEEL®

Designed to work in tough environments, TotalSteel® creates a protective shield for the operator and the internal components of the machine. The robust overhead guard shields against objects potentially falling from above. This version is perfect for rental units, for medium-long-term contracts.

### MULTIPOCKET FILTER®

With an innovative structure, large filtering area and up to 99.9% filtration efficiency, the Multipocket Filter® delivers clean air back into the environment and guarantees filter performance that lasts over time. The filter is also washable, resistant to water and oil, self-cleaning and easy to maintain.

### ERGONOMIC CONTROLS

### EASY ERGONOMIC STEERING

### TOTAL STEEL®

### SIDE BRUSHES

QUICK CHANGE SYSTEM®

## VERSIONS

ASC Eureka M6 – 3 cylinder, 25 hp, liquid cooling Kubota diesel engine  
 ASC Eureka M6 – fuel type: petrol or LPG  
 ASC Eureka M6 EVOLUTION – battery powered with new A.C. electric motor with energy recovery

## APPLICATIONS

Industrial sites, schools, offices, religious buildings, hospitals, public buildings, airports, ports, shopping centres, logistics centres and contract cleaners.

## SURFACES

Ceramics, marble, cement, concrete, linoleum, non-slip surfaces, tiles.

TECHNICAL SPECIFICATIONS	M6 DIESEL HDK	M6 LPG	M6 ELECTRIC EB
SWEEPING PATH with 2 side brushes	1.560 mm	1.560 mm	1.560 mm
SWEEPING PATH only main brush	902 mm	902 mm	902 mm
CAPACITY OF DIRT CONTAINER	300 lt	300 lt	300 lt
DUMPING HEIGHT, HYDRAULIC LIFT	1.540 mm	1.540 mm	1.540 mm
FORWARD SPEED	12.00 Km/h	11.50 Km/h	10.00 Km/h
CLEANING CAPACITY	18.720 sq/m/h	17.940 sq/m/h	13.730 sq/m/h
FILTER TYPE	polyester bag	polyester bag	polyester bag
DRIVE	hydraulic	hydraulic	electric
DRIVE MOTOR	hydraulic	hydraulic	electric
MAIN MOTOR	Diesel, Kubota 20.6 Hp	Petrol, Kubota 29.5 Hp + Gas GPL	1 x 36V - 1.800W
BATTERY SYSTEM	-	-	36V
WEIGHT (with battery)	1,175 kg	1,163 kg	1,386 kg
SIZE (with brushes)	1.560x2.380x1.900h	1.560x2.380x1.900h	1.560x2.380x1.900h
