

RoastMaster™ 20  
**Great coffee  
flavor creation**

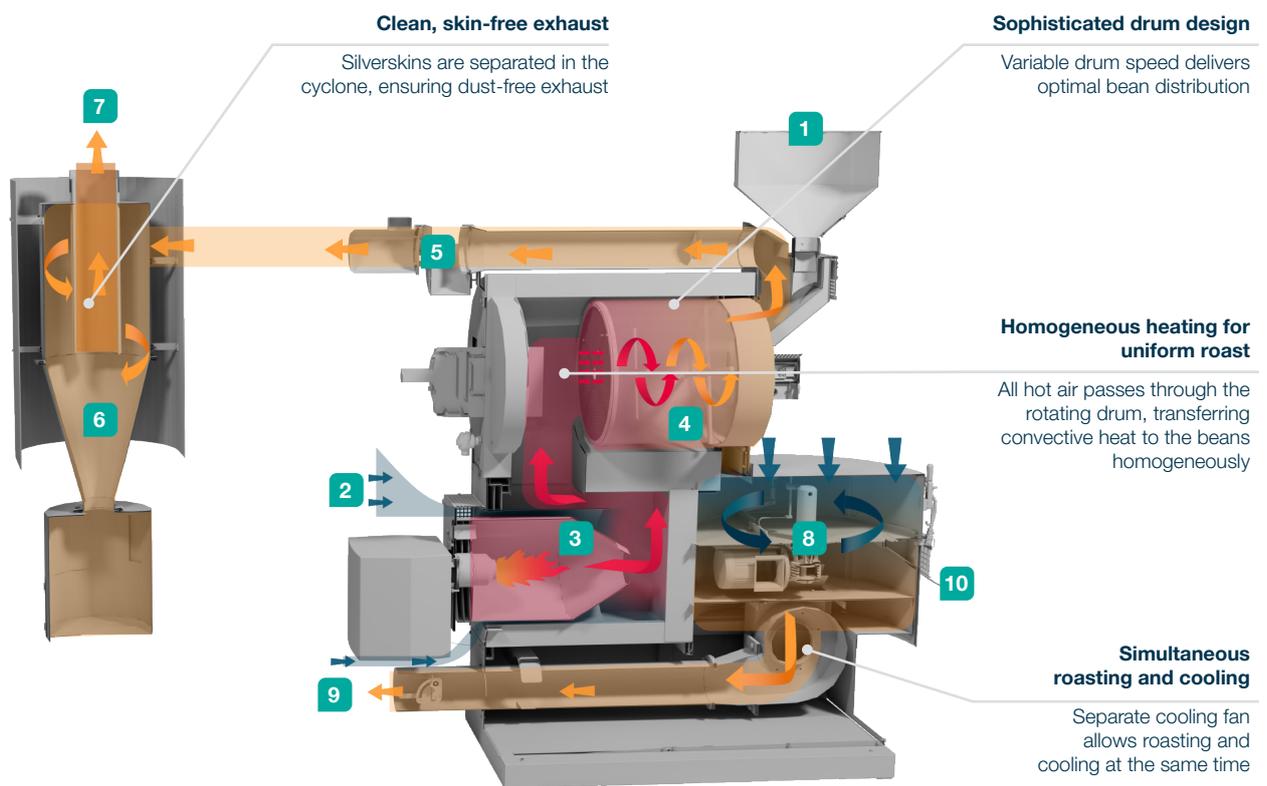

# RoastMaster™ 20

## Unleash the full flavor potential of your coffee beans

The RoastMaster™ 20 empowers you to create optimized roasting profiles for superb flavor generation. The RoastMaster™ 20 by Bühler offers exactly what roasteries require to produce top-quality coffee with a capacity range of up to 70 kg per hour.

### Process flexibility for your flavor signature

Each coffee variety is unique by nature and requires individual roasting conditions to transform the full intrinsic flavor potential into great coffee. The sophisticated multi-step process control inspires profile roasting for best flavor generation for both traditional and non-conventional profiles. The RoastMaster™ 20 is additionally equipped with a fully variable burner for flexible energy input and allows for variable speed and optimized air-to-bean-ratio during the different stages of the process.

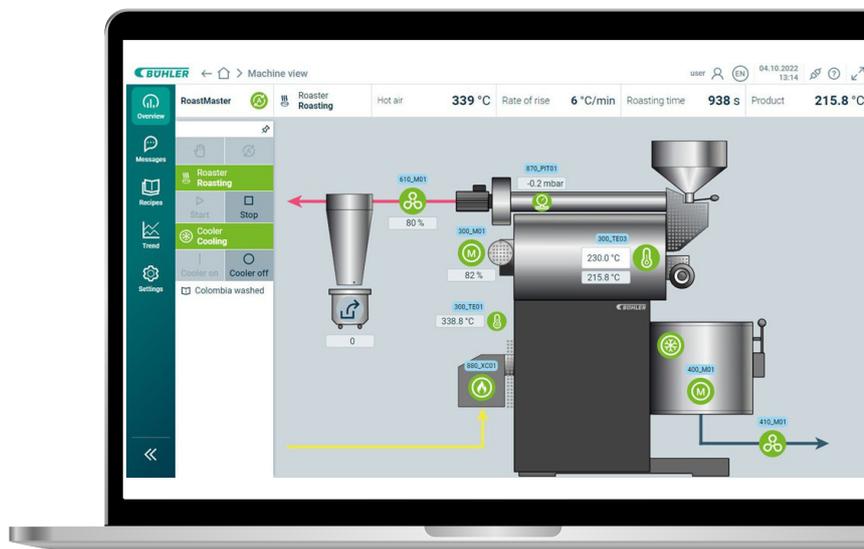

- |                   |                 |                      |                   |                      |
|-------------------|-----------------|----------------------|-------------------|----------------------|
| 1 Product inlet   | 3 Burner        | 5 Hot air ventilator | 7 Hot air exhaust | 9 Cooler air exhaust |
| 2 Fresh air inlet | 4 Roasting zone | 6 Cyclone            | 8 Cooling zone    | 10 Product discharge |

## Next generation connectivity powered by Bühler Playone.

Playone represents a new generation of RoastMaster™ 20 web-based machine control. Playone is highly intuitive to use and improves every facet of machine operation with real-time information, trend monitoring and recipe adjustment. Harmonious user interface simplifies the operating of machines, reduces the complexity, and minimizes staff training efforts. The new RoastMaster™ 20 machine control is accessible by any computer or tablet and can be connected with Bühler Insights or Cropster.
