

Platform & Fork Stacker – 1.8m Lift, 400kg Capacity, Adjustable Forks, Removable Platform

The MPJ4180 Platform/Fork Lifter is designed for safe, efficient loading and unloading of heavy objects from trucks, utes, and warehouse floors, reducing the risk of back injuries. Perfect for warehouses, workshops, and industrial environments, this versatile manual stacker combines strength, stability, and ease of use.

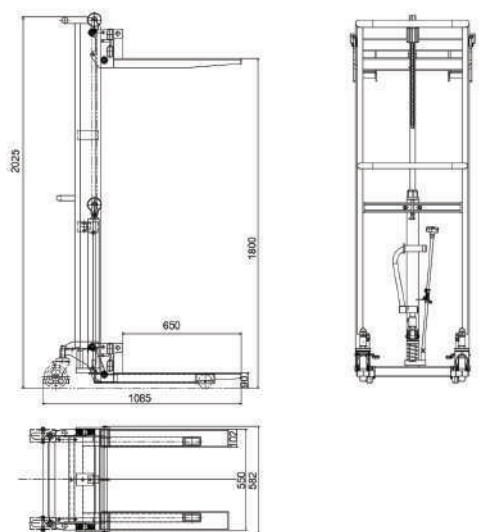

Features

- **Versatile Lifting Options:** Removable platform and adjustable fork tynes allow handling of pallets and skids with ease.
- **Direct Floor Access:** Lifts from ground level for quick engagement with skids and pallets.
- **Rugged Build:** Hard chrome-plated frame resists corrosion, wear, and tear for reliable, long-lasting performance.
- **Foot Pedal Hydraulic Lift:** Smooth, low-effort lifting and lowering via easy-to-use foot pedal system.
- **Stable & Smooth Mobility:** Equipped with two frame rollers for secure, controlled movement.
- **Rear Braking Mechanism:** Provides extra security during lifting and stationary use.
- **Manual Push Operation:** Effortless positioning and manoeuvring throughout the workspace.
- **Safety-First Design:** Powder-coated safety yellow with polyurethane castors (2 fixed, 2 swivels with brakes) to protect floors and ensure safe handling.

Specifications

Model		MPJ4180
Capacity	(kg)	400
