

PROVER ROOM WHEEL-IN RACK

The Carlyle Prover Room (wheel-in) is crafted from 50mm thick white cool room paneling. This material not only ensures durability but also contributes to superior insulation, creating an environment where temperature and humidity are controlled for perfect proofing conditions.

The Prover Room features sliding doors with windows, providing visibility into the proofing process without compromising the controlled environment. Providing versatility for an array of rack sizes, our system effortlessly accommodates rack heights of up to 1990mm.

| Part No | Racks | Height (mm) | Width (mm) | Length (mm) |
|----------|-----------------------|-------------|------------|-------------|
| Prover-2 | 2 single or 1 double | 2100 | 1270 | 1700 |
| Prover-3 | 3 single | 2100 | 1270 | 2000 |
| Prover-4 | 4 single or 2 double | 2100 | 1270 | 2710 |
| Prover-6 | 6 single or 3 double* | 2100 | 1270 | 3600 |
| Prover-8 | 8 single or 4 double* | 2100 | 2600 | 2560 |

Integrates with Carlyle Humidity Unit
