

Electric Range With Cast Iron Plates

- fully moulded hob, obtained from a single large stainless steel plate;
- water tight cast iron radiant plates to avoid liquids penetrating on electric wiring;
- automatic safety thermostat to avoid plates overheating, particularly during empty functioning;
- ergonomic, recessed and tilted knobs with 7 control positions ;
- "powered plates" indicator lights;

Electric version

- Independently adjustable stainless steel heating elements on the top and below the cooking area base plate
- Thermostatic control of range temperature from 100°C to 300°C;
- "Powered appliance" indicator light;
- "Set temperature reached" indicating light

22x22 square plates secured to worktop so that they are watertight.

220mm round plates watertight to worktop.

Temperature control provided by 7-position selector switch, whilst control panel has warning light to show that heating is on.
