## DESCRIPTION

The Hyundai DHY8500SE 8kVA Generator is one of the most popular 6.4kW standby diesel generators available on the market today. The compact size, clean power output make it a reliable source of backup electrical power for your business or home. The large 13 litre fuel tank can provide up to 7 hours of run time @75% load.

The DHY8500SE features electric start and a convenient digital control panel which displays the frequency, voltage and total run time.

The built-in low alarm and automatic shutdown keeps the generator safe during operation ensuring the engine is protected at all times. The canopy has a large, hinged access panels to make routine maintenance and inspection much easier and is mounted on wheel for ease of movement.
