

Electric Towing Tug – 4.5 Tonne Capacity with Tow Bar, Front Hitch & Fifth Wheel Trailer Hitch

The KMT-T45RV Electric Towing Tug is designed for safely moving loads up to 4500kg in warehouses, airports, factories and industrial environments. Featuring a **hydraulic raise-and-lower system with an integrated fifth wheel trailer hitch**, this tug provides a versatile solution for moving trailers, carts and other wheeled equipment.

The **fifth wheel hitch allows controlled coupling and movement of compatible trailers**, while the additional hitch attachment point enables different hitch types to be fitted for various applications. The KMT-T45RV can both pull and push loads with **minimal operator effort**, making it ideal for applications where **space and manoeuvrability are important**.

Easy-to-use handle controls, battery level indicator and battery-powered operation provide **smooth and reliable performance throughout the working day**. Supplied complete with **batteries and built-in charger**.

Features

- 4500kg towing capacity.
- Hydraulic raise-and-lower fifth wheel trailer hitch system.
- Adjustable fifth wheel hitch height (1070–1320mm).
- Additional hitch attachment point for different towing applications.
- Suitable for pulling and pushing wheeled loads.
- AC drive motor for smooth and consistent power delivery.
- Durable steel construction for industrial use.
- Large tyres for improved traction.
- Powder-coated finish for long-term durability.
- Easy-to-use steering handle controls.
- Batteries and built-in charger included.
