

# Aquatuff Electric

A stainless steel shower trolley with electrically operated 300kg SWL, wide top and backrest options.

## Key Benefits

**Safe & secure:** The dropsides fold underneath the top and the liner side lays down to provide gap free patient transfers.

**Hygiene conscious:** Tilt the top 2 degrees and lower the drain hose tip to quickly remove waste water.

**Custom adjustments:** Raise or lower the height of your trolley to suit bed transfer or best working positions. You can also lock the removable end rails into two positions, allowing 120mm extra space for longer patients

## Why Buy?

Having equipment that is robust and completely reliable is of the utmost importance when caring for larger or heavier patients. We have over-engineered the componentry strength in this design and our decision to use total stainless steel reinforces the lifetime of value that this bariatric shower trolley will give. The electric operation helps to safely lift 300kg without overload, whilst four twin wheels with brakes, electric backrest and wider top options all increase versatility in special needs.

# Aquatuff Electric

## Lies flat

The backrest option lies completely flat and raises up to 15 degrees at the touch of a button.

## Standard design

The standard top has a full length dropside with an electric backrest raise option for extra comfort if required.

## Safe transfer

The drop sides fold underneath the top and the liner side lays down to provide gap free patient transfer.

## Easy drainage

Tilt the top and lower the drain hose tip to quickly remove waste water.

## Height adjustment

Raise or lower the height of your trolley to suit bed transfers or best working positions.

## Length adjustment

Lock the removable end rails (on each end of the top) into two positions, allowing 120mm extra space for longer patients.

## Wide top option

Add a 100mm wider top for larger patients with wide shoulders.
