

Flow Mach 200

Elevate Expectations.

Engineered to deliver value, reliability & performance, the Mach 200 is specifically designed for the stone, engineering and fabrication industries. **Seamless integration** into almost any production environment makes this machine a **preferred solution** for operators looking to generate higher ROI and increase workshop efficiencies.

Specifications

Load / Weight Rating:	1465kg / sqm table area
Linear Accuracy:	$\pm 0.095\text{mm/m}$
Maximum Rapid Traverse:	10m / minute
Repeatability:	$\pm 0.064\text{mm}$
Ballbar Circularity:	$\pm 0.095\text{mm}$
Z-Axis Travel:	203mm

High Pressure Pump Options

Hyplex Prime direct drive	55,000 psi
30SA intensifier pump	60,000 psi

Available Table Sizes

1300mm x 1300mm
3100mm x 2000mm
4000mm x 2000mm

Cutting Software

FlowMaster 8

Standard Inclusions

Pivot Plus™ Cutting Head
UltraPierce™ Vacuum Assist
