Organisation in the Refrigerator

For more than 30 years, **H+H SYSTEM** has engaged in the organisation of refrigerators. With its unique space-saving and flexible concept it allows simple and rapid changes. Due to the possibility to make intelligent changes in the divider system, you are able to separate each drug from the other. A place for everything, everything at its place. The flexible divider concept allows simple and rapid changes to react to the daily changing need for costly space.

H+H SYSTEM offers installation ready drawers in any size made of Aluminum, Plastic and Stainless Steel. With up to 30 % space savings we offer storage systems for medication, blood and plasma designed for your individual needs. We can also easily equip any existing fridge or freezer with our **H+H SYSTEM** drawers.

Dividers in 5 different heights

H+H drawers come in different configurations. The divider system is available in 5 different heights.

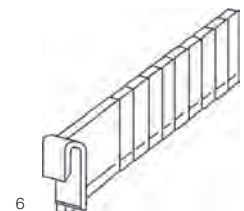

Every dividing configuration possible

The combination of aluminium rails and flexible dividers offer an optimal division for every stored product. The result is the optimal usage of the existing space.

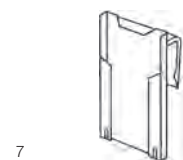

Flexible dividers (easily moveable)

The flexible dividers are clipped on the rail and positioned against the product. Integrated breakpoints allow the division of individual products.

Card holders - integrated or clip on

Integrated or clip on label holders are available. Label holders are used for identification and with the double cardsystem for easy reordering.

Highest stability

For the storage of heavy products (bottles, ...) an opposite clip can be used.

The High-Standard AluCool® Drawer

Consistent temperature and optimal storage use

Aluminium is light, esthetic and durable. Its lightness ensures a consistent temperature in your refrigerator.

Other advantages: easy overview and flat surface for optimal cleaning and hygiene. Together with the **H+H** Divider system you achieve a functional solution, the perfect organisation, overview and flexibility that will be standard for all your cooling needs. A place for everything and everything at its place.

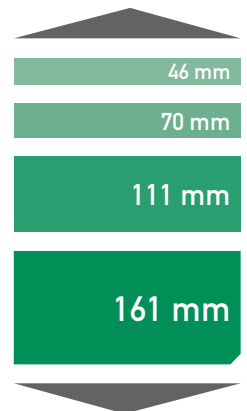

Also available in stainless steel!
