

Platform & Fork Stacker – 1.5m Lift, 400kg Capacity, Adjustable Forks, Removable Platform

The MPJ4150 Platform/Fork Lifter is designed to make lifting, loading, and unloading heavy objects safer and more efficient, reducing the risk of back injury. Perfect for warehouses, workshops, and industrial environments, this versatile manual stacker combines durability, ease of use, and multifunctional design.

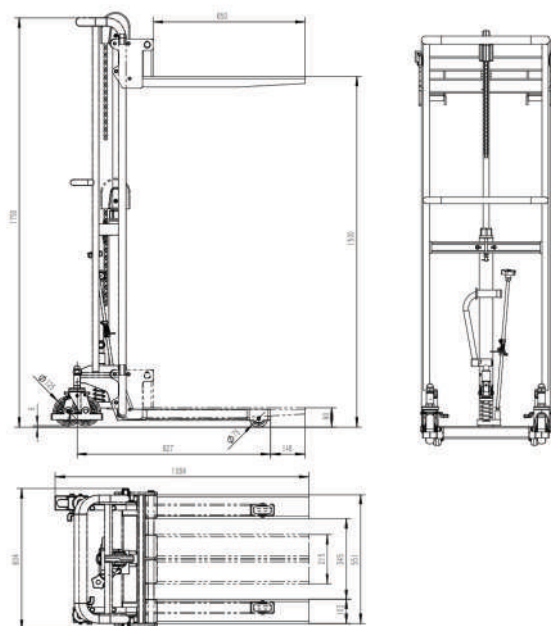

Features

- **Two-in-One Lifting Solution:** Features a removable platform for versatile handling. Use adjustable fork tynes to lift skids and pallets.
- **Ground-Level Lifting:** Can lift directly from the floor for easy access to skids.
- **Durable Construction:** Hard chrome-plated frame resists corrosion, wear, and tear for long-lasting performance.
- **Foot Pedal Hydraulic System:** Smooth and effortless lifting and lowering with minimal manual effort.
- **Stable & Manoeuvrable:** Two frame rollers ensure safe, smooth operation.
- **Rear Braking System:** Secures the stacker during operation for added safety.
- **Manual Push Drive:** Easy to move and position with minimal effort.
- **Safety Features:** Powder-coated in bright safety yellow with polyurethane castors (2 fixed, 2 swivels with brakes) for secure handling.
