## PRO.EQUIP UNDERCOUNTER GLASSWASHER 436MM PE435

**Product Code:** 4012335

**Product Description:** Introducing the PE435 Pro.equip Glasswasher, part of our new and exclusive range of dishwashers and glasswashers designed to meet the demanding needs of bustling bars, cafes, and restaurants. Engineered with precision and reliability in mind, this glasswasher ensures your glassware is impeccably clean and ready for service, every time.

With three wash cycle options, the PE435 Pro.equip under counter glasswasher delivers superior performance ensuring thorough cleaning to remove stubborn residues so glassware maintains a crystal-clear lustre. This is supported by the standard peristaltic detergent and rinse aid dispensers which can be adjusted from the control panel.

What are Peristaltic Pumps? These are dosing pumps that are specifically designed to dispense precise amounts of chemicals during each wash cycle. This increases the efficiency of the glasswasher as the correct dose of detergents and rinse aids are triggered for release reducing the amount of chemicals required, over-dosed wash cycles, and pressure on the machine. This results in reduced overall running costs, water, and electricity consumption which is especially important in commercial glasswashers required to run at high temperatures with very fast wash cycles.

This model features three wash cycles - 60, 120, and 150 seconds.

The straightforward control panel makes operating the PE435 Glasswasher simple, even during the busiest shifts. The three wash cycles are easy to navigate without fuss or extensive experience working with commercial kitchen equipment.

The PE435 boasts a compact design that fits seamlessly into any kitchen or bar layout without issue. With a height of 820mm including legs, or 670mm without, this model is suitable for tight spaces or under-counter installation for easy access and convenience. Further to this, the surface area and handle are easy to clean ensuring perfect presentation while the busy wash cycles are in progress.

Made in Italy with quality craftsmanship, this Pro.equip Glasswasher, available exclusively from Reward Hospitality, has been engineered to comply with the strictest international construction standards, and reduce the consumption of water, energy and detergent. This is your ultimate partner in delivering impeccable service with ease. With innovative technology, durable construction, superior cleaning performance and inbuilt self-diagnosis technology, this is the perfect machine to keep glassware sparkling and your operations running smoothly.

Invest in the PE435 Glasswasher for a superior glass washing experience for superior results in your establishment. Shop the full range of Commercial Kitchen Equipment by
