X1000 Paxum model a Fully Automatic Pallet Wrapping Machine. Designed for industrial applications, this cutting-edge machine offers exceptional efficiency and performance for your packaging needs. With advanced features and reliable technology, it is the ultimate solution to optimize your pallet wrapping process.

Highlights

- **High Efficiency:**
 - Slewing bearing transmission
 - Noiseless, maintenance-free
 - Handles 35-40 loads/hour
 - No additional counterweights needed
- **More Powerful:**
 - Ultimate film-clamping effect
 - Precise cylinder film-cutting
 - Mechanical filming system
- **Save Cost:**
 - Up to 400% pre-stretch rate
 - Standard constant releasing film
 - Precise fixed-pointed wrapping
- **Quality Spare Parts:**
 - Reliable SICK proximity switch
 - Photoelectric sensor for accuracy
 - Weidmuller Terminal Board connectivity
 - Advanced SIEMENS PLC and Inverters

Features

- Auto film cutting and clamping
- Automatic top sheet dispenser (optional)
- Automatic paper corner fixer (optional)
- SEW & SIEMENS motor drive system
- Advanced photoelectric sensor
- Noiseless operation
- Maximum pre-stretch rate of up to 400%

Options

- Top Pressure Function
- Lifting Up Conveyor
- Top Sheet Dispenser
- Paper Corner Fixer
