ReadyWrap® Full Range Brochure

Clinically effective¹ and easy-to-use^{2,3}
adjustable compression wrap

30-50mmHg
compression[^]

ReadyWrap

Adjustable compression garments for patients with venous and lymphatic diseases.

[^] resting pressure

ReadyWrap®

Clinically-effective and easy-to-use.

ReadyWrap is an adjustable compression wrap that provides patients and their caregivers an easy-to-use solution to support wound healing and oedema management.¹

ReadyWrap provides clinically effective 30-50mmHg compression therapy while supporting patient compliance with its unique yet simple application method.

 Off-the-Shelf or Custom*

 Day or Night

 High or Low Activity

“To manage the swelling reduction, I placed him in bi-lateral ReadyWrap garments. He and his spouse loved that they could easily don/doff it on their own.”

Vicki Ralph, MPPA, OTR/L, CLT-LANA

Why choose ReadyWrap?

ReadyWrap features low-stretch straps that mimic short stretch bandaging — delivering effective compression therapy with high working and low resting pressure.

To support patient compliance, ReadyWrap offers colour-coded VELCRO® straps for application and alternating strapping system to support one handed donning as needed.

With ReadyWrap, you can be certain your patients will have an effective and comfortable garment that easily adjusts to their limb and donning abilities.

* Lower extremity styles only

Low-stretch material

Mimics short-stretch bandaging — the gold standard of treatment.

Colour-coded straps

Provides easy step-by-step donning guidance.

50% Overlapping straps^s

Helps prevent gapping.¹

Blocked support spine

Helps maintain garment form to support all-day wear.¹

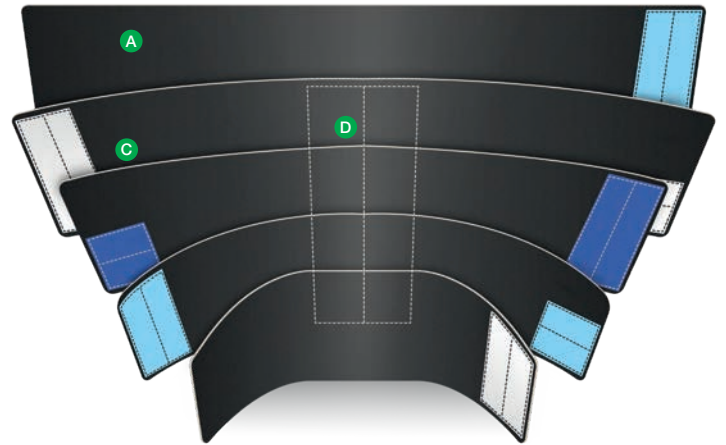

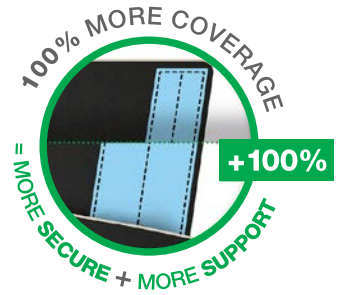

Foam Padding

Cushioning at elbow and wrist provides comfort and evenly distributes pressure.

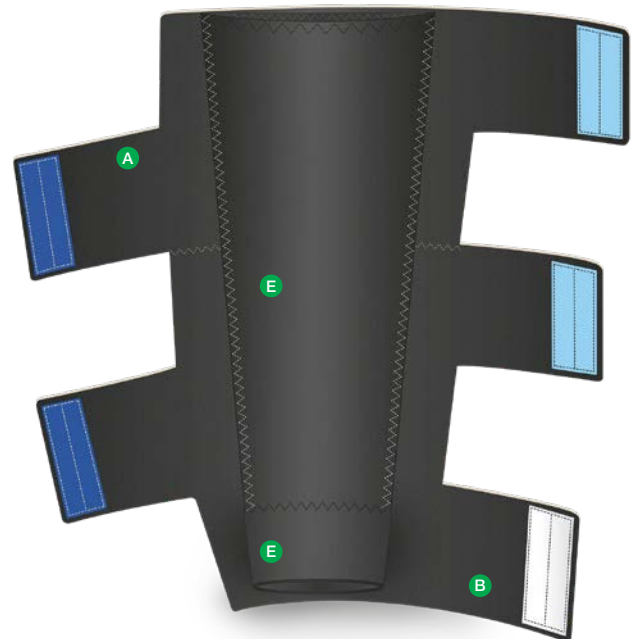

Modular design

Garments work effectively on their own or in combination.

ReadyWrap Calf

ReadyWrap Arm

Indications

- Lymphoedema
- Chronic oedema
- Venous disease
- 6-month warranty
- Hand wash, lay flat to dry

A full holistic and vascular assessment should be carried out before treatment.

ReadyWrap®

Adjustable compression system for upper limbs

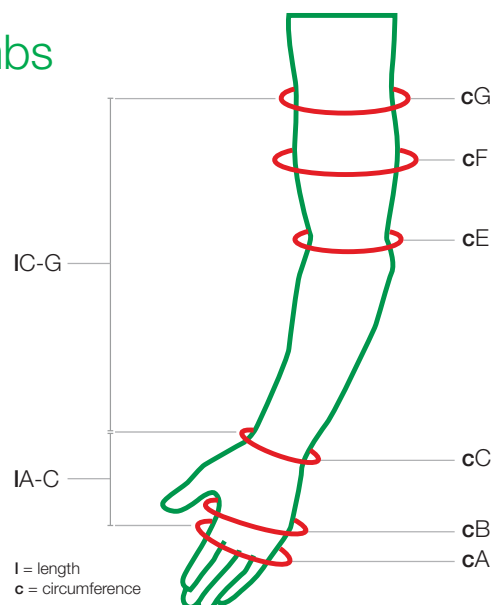

Measuring Instructions

Circumference points:

- cG** top of the arm, just below the axillary crease
- cF** widest part of the bicep
- cE** round the elbow joint and into the crease of the elbow
- cC** narrowest point of the wrist
- cB** widest width of the palm, below the metacarpal phalangeal joints
- cA** around the metacarpal bones, around the base of the fingers

Lengths:

- IC-G** the length between point cC and point cG
- IA-C** the length between point cA and point cC

Arm

- Double-sewn liner allows for easy, one-handed donning and doffing
- Padded wrist and elbow to eliminate compression hot spots and provide additional comfort
- Bilateral design contours to both left and right arms

	Circumference (cm)			Length (cm) (IC-G)	REF	
	Wrist (cC)	Elbow (cE)	Axilla (cG)		Beige	Black
Small	13.5-17	19-26	22-29	Short (up to 43cm)	104514	104515
				Average (up to 46cm)	104516	104517
				Tall (up to 49.5cm)	104518	104519

				Average (up to 46cm)	104522	104523
				Tall (up to 49.5cm)	104524	104525

Gauntlet

- Left and right specific design contours more naturally to the hand
- Built-in padding for palm and dorsum helps provide consistent compression over bony prominences
- Pocket design allows for foam pads to provide additional support
- Designed to overlap the ReadyWrap Arm garment to reduce gapping

	Circumference (cm)		Length (cm) (IA-C)		REF	
	Palm (cA)	Wrist (cC)			Beige	Black

				Left	104492	104493

ReadyWrap®

Adjustable compression system for lower limbs

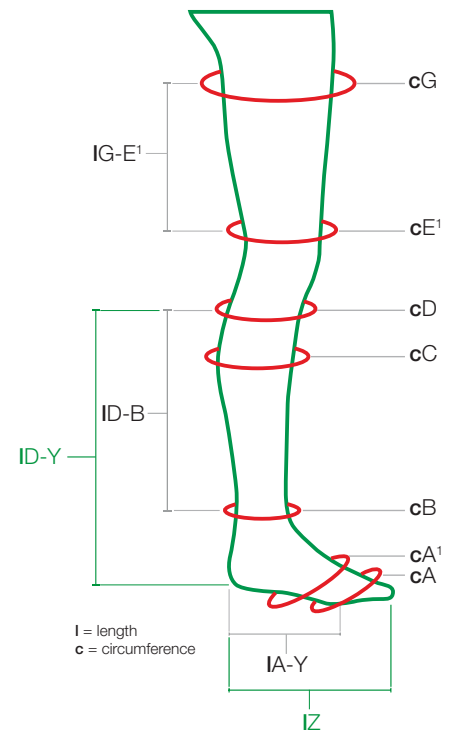

Measuring Instructions

Circumference points:

cA	around base of toes	cG	2 cm below gluteal fold
cA¹	around the arch/dorsum of the foot	cD	2-3 cm below popliteal fossa
cB	2 cm above malleolus	cE¹	5 cm above the knee
cC	widest part of calf		

Lengths:

IA-Y	heel to base of toes
ID-B	the length between point cB and point cD
IG-E¹	the length between point cE ¹ (5 cm above the knee) and point cG
IZ	heel to the tip of the longest toe (Fusion Liner only)
ID-Y	bottom of the heel to point cD (Fusion Liner only)

Toes

- Unique design allows for adjustable toe girths
- Provides full foot coverage when paired with a ReadyWrap Foot unit
- Left and right specific design provides enhanced contouring

	Circumference (cm)		REF	
	Base of toes (cA)		Beige	Black
Small	18.0-20.4	Right	104416	104417
		Left	104406	104407
