

The Boscotek™ range of modular workbenches provide heavy duty, flexible workspace for a range commercial and industrial applications. Available in a number of configurations workbenches can be assembled to meet the specific requirements of individual work environments. Used in conjunction with the Boscotek™ range of modular storage units, the workbenches form part of a complete, industrial workspace solution.

WORKBENCH FEATURES:

- Welded 3mm mild steel frame and bench top construction
- 800Kg bench top static load capacity (UDL & no castors)
- Modular design enables integration with the Boscotek™ range
- Add components as your workspace requirements change
- Ergonomically designed working heights
- Premium powder coat colours available
- Workbenches supplied flat packed unless specified

CHOOSE YOUR CONFIGURATION....

With 4 easy steps steps for 700mm high Modular Workbenches

700mm high

Step 1 Select your workbench size (all dimensions in millimetres)

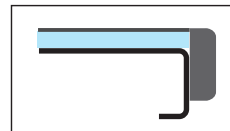

- 700H X 1200W X 750D code BTWB.700.1200
- 700H X 1500W X 750D code BTWB.700.1500
- 700H X 1800W X 750D code BTWB.700.1800

Step 2 Select your bench top option

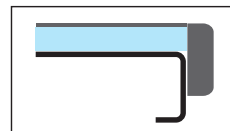

FORMICA*

18mm chipboard with white laminate. All edges have solid hardwood trim.

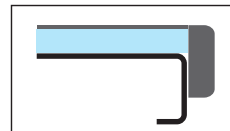

HARDBOARD ON STEEL*

3mm matt black steel top with replaceable masonite cover.

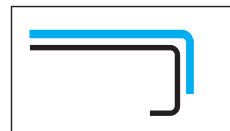

DURALOID*

18mm chipboard with 2mm Duraloid bonded to top with hardwood trim. Duraloid is a specially engineered high grade surface which is resistant to scuffing and withstands molten solder.

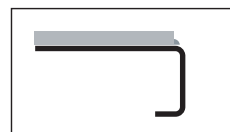

ANTISTATIC*

18mm chipboard with high grade anti-static work surface. All edges have solid hardwood trim.

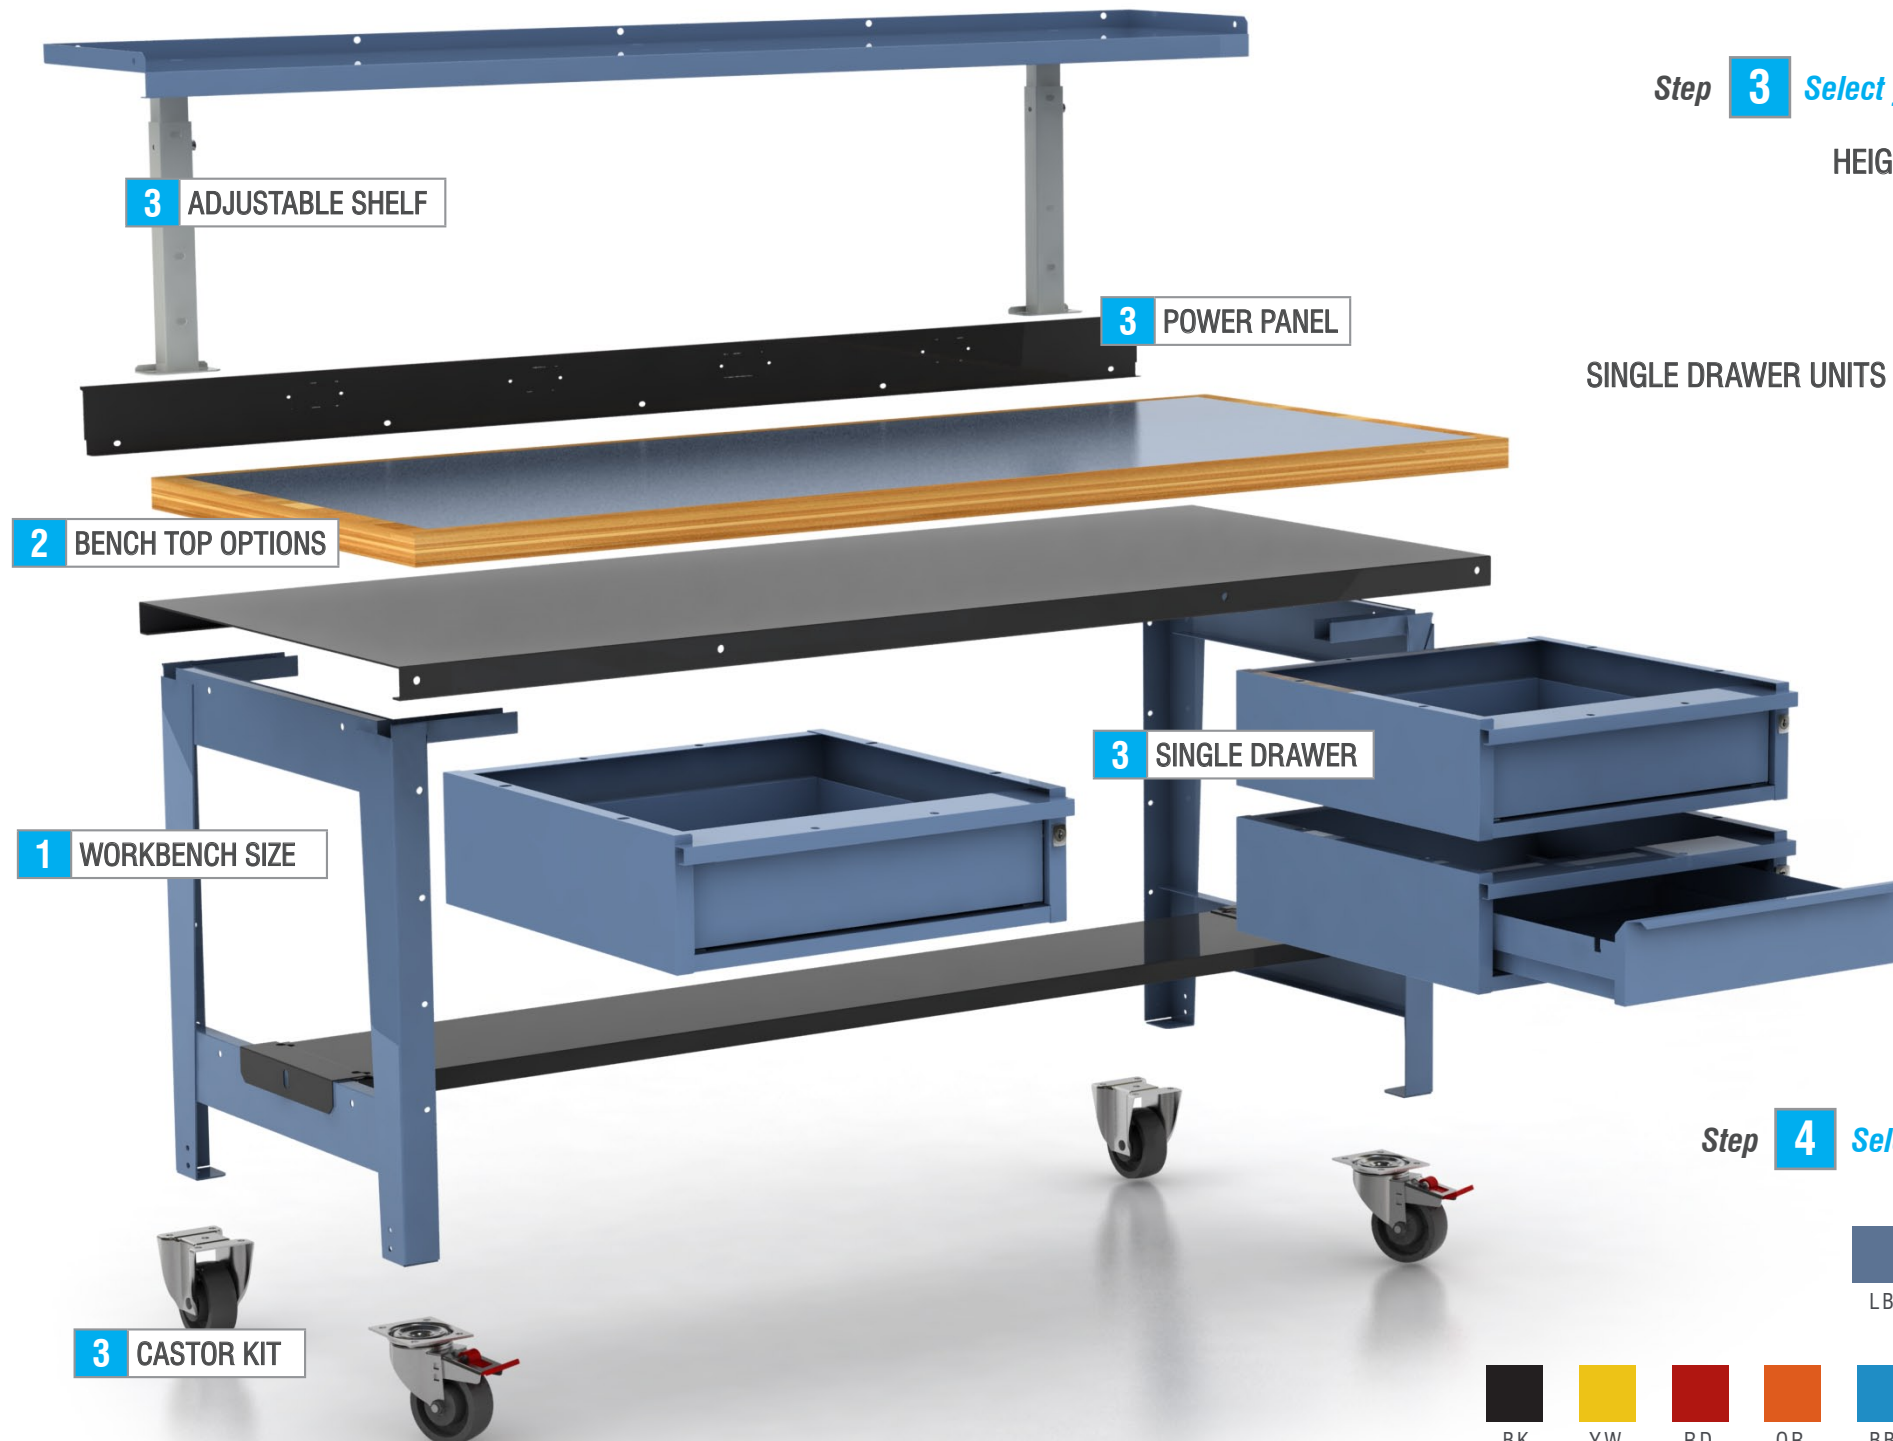

STAINLESS STEEL

An additional 1.2mm satin stainless steel top - Load capacity 800kg.

HEAVY DUTY STEEL

An additional 5mm heavy duty steel top, reinforced with steel channel. Matt black finish.

Step 3 Select your accessory options

HEIGHT ADJUSTABLE SHELF

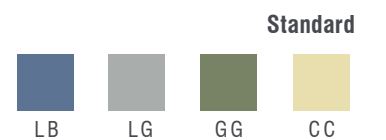

LOCKABLE CASTORS

LEVELLING FEET

POWER PANEL

SINGLE DRAWER UNITS (max of 3 stacked units)

Step 4 Select your colour options

Premium

* Add 40mm to the overall width and depth of these bench tops

CHOOSE YOUR CONFIGURATION....

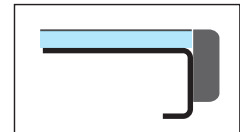

With 4 easy steps steps for 900mm high Modular Workbenches

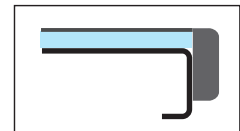

900mm high

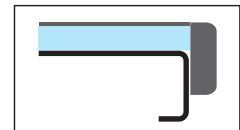

Step 1 Select your workbench size (all dimensions in millimetres)

- 900H X 1200W X 750D code BTWB.900.1200
- 900H X 1500W X 750D code BTWB.900.1500
- 900H X 1800W X 750D code BTWB.900.1800

Step 2 Select your bench top option

- 

FORMICA*
18mm chipboard with white laminate. All edges have solid hardwood trim.
-
