

OIL IN WATER

HMA

INSTRUMENTATION

Specialising in Oil In Water
detection and monitoring

At HMA Instrumentation we are experts when it comes to the detection of oil in and on water and are able to help with all your oil in water detection needs.

We have a range of products and are able to:

- Detect oil sheen in a retention pit, sump or pond
- Laboratory units for testing oil in water & soil in the ppm/ppb range
- Monitor an online flow in the ppm/ppb range
- Accurately control the interface level and dewatering of a process vessel
- Determine the % oil in water or water in oil for a flowing process line

INDUSTRIES

- Oil/Petrochemical
- Power Generation and Distribution
- Transport
- Manufacturing
- Water
- Offshore

APPLICATIONS

- Online Monitoring
- Grab Sample Analysis
- Oil & Solids Particle Detection and Analysis
- Oil Droplet Distribution
- Water in Oil
- Oil in Soil Detection
