

Matrix Paging System

The Matrix Paging System is an **ALL-IN-ONE**, extended range, space-saving, paging solution expandable to up to 9,999 pagers. Vibration, tone and flashing LED's alert your customers when their table or service is ready or when their meals or drinks can be collected. Specially designed for hospitality, retail and service, Matrix Paging is certain to surpass all your requirements.

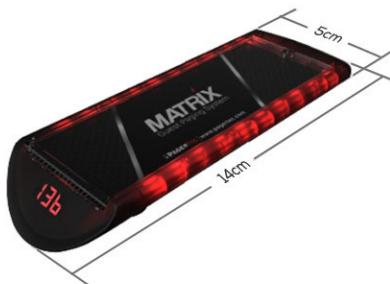

Overview

- Easily Expandable up-to 9,999 Pagers: The paging system can grow in size as your business grows. Adding pagers to the system is simple.
- 2 AAA Rechargeable batteries. User can change.
- Fast Charging: Fully charge batteries in just 4-8 hrs. Designed to never over-charge batteries.
- Multiple Alerts: Stronger vibrations, light or sound that will be sure to get the attention of the customer.
- Extra-Long Range: Pagers can be reached with a powerful transmitter that penetrates walls and allows great coverage, over 1km.
- HD Frequency: Never worry about interference from another system.
- Best Warranty Available: Covers pagers and transmitter for two full years from the date of purchase against any manufacturing defects.

Matrix Paging System

The Matrix is our top of the line Paging System that combines world-class paging technology with freedom for users to be sure they will be paged anywhere in your venue. Now you can give users a Matrix pager with a distinct style, whether it's your unique logo, promotion, or branding. The user can get the most out of their waiting experience. With a premium finish, the Matrix pagers are built for the most demanding environments as the most trusted solution in the market.

Extra strength built-in rubber bumpers: Protects pagers from drops or falls. All pagers are tested to withstand 3,000 drops.

Compact Paging System: Ergonomic clean design and space saving design with the least amount of cables showing.

Bright LED & Strong Vibrations: Easily grab the attention of your guests with alerts that they will not miss.

Greater Wireless Range for More Pagers: Allow guests to wait freely, with a system that will penetrate walls with extended coverage.

Advertisement Window: Place your advertisement in the center of the pager. Easily change promotions and advertise to your customers on the pager.

User Programmable: Change the alert times and the alert modes directly from your system without having to send back for programming.

Anti Bacterial Casing: Helps prevent bacterial build up to promote a cleaner environment.

Waterproof IP67: Prevents any damage to the pager by mild to moderate water exposure.
