Nally

Made in Australia
for Australia.

Nally MegaBin®

The Nally MeagBin® is made in Australia for Australian conditions.

The Nally MegaBin® is the original Australian bulk bin.

Rounded corners and smoother interior surfaces results in less bruising and damage to your produce. Multiple vents in sides and base provide superior airflow so products cool faster adding valuable shelf life to your produce. The smooth, non-absorbent surface will not harbour or transfer mould, bacteria or disease carrying organisms.

Easy, clear ownership identification with hot foil stamping, sequential numbering and barcoding.

Handholds are built in for easy lifting and handling of bins. The positive interlocking foot design permits fast and safe stacking in both pallet racking and unit atop of unit.

A strong bin cover, tipping bars, liquid bungs, hotstamping, barcoding and numbering are all available at your request.

Spec Drawing

- a. The positive interlocking foot design offers quicker handling and safer stacking up to ten bins high enabling you to maximise valuable floor space.
- b. Nally MegaBins® are compatible with Dexion, Schaeffer, Colby and Loscam pallet racking.
- c. Vented Nally MegaBin® provide superior airflow so products cool faster adding valuable shelf life to your produce.
- d. Solid Nally Megabin® stacked including MSLid.
- e. Standard foot and extended height foot.
- f. Comfortable handholds are built in for easy lifting and handling of bins.
- g. Rounded corners and smoother interior surfaces results in less bruising and damage to your produce.
- h. Extendable height foot ensures maximum safety by allowing for accurate and safe locating of the bin in pallet racking applications by creating deeper recess.
