

Fit panels at lightning speed

No unsightly screws or bolts

Incredibly strong

Perfect alignment

Easy panel removal and replacement

**Fit panels at lightning speed**

Button-fix is an excellent choice for interior fit-outs, renovation and furniture projects as it offers a really quick and reliably accurate way of attaching panels, signage and objects to walls, ceilings and other surfaces.

The concept is simple: durable nylon buttons are attached to the back of one panel and the mating fixes are attached to the other. Bring the panels together and slide until the Button-fixes 'click'.

**No unsightly screws or bolts**

The Button-fix fix is completely invisible — with no bolts or screws on show, installers can be confident of quickly achieving a fabulous flawless finish that their own clients will love.

**Perfect alignment**

Use the ingenious Marker accessories to quickly and accurately align the Button-fix installation. No need for a tape measure or for guesswork!

**Incredibly strong**

The strength of Button-fix has been extensively and independently tested. Our stress testing report for load bearing properties is available on our website.

**Easy panel removal and replacement**

Whether your project involves fixing wall panels, shelving, bath panels, ceiling panels, kitchen islands or IPS systems, you'll want to know that they can be removed in a matter of seconds to gain access to pipework and services. By using Button-fix to attach your panels, you can remove them with the minimum of fuss and without damage.
