

# 'Y' Cable Adaptor - USB

Indigo Care provides a New USB "Y" Cable Adaptor to be used with all our USB Fall Prevention Sensor Mats: Floor, Bed, Under Mattress and Chair. The USB connection is durable and robust with a low profile ensuring the cable is more secure and less vulnerable to breakages from external forces. The USB Y Cable comes as a standard item when you purchase a USB PVC Floor Mat and is also sold as a separate item when required. The USB "Y" Cable will allow you to connect to the USB sensor mats, add a nurse call bell pendant, and integrate to your existing nurse call system. The resident will have a pendant and a mat connected to the one nurse call point. There are three types of USB "Y" cables to choose from and the type is dependent on your existing nurse call system. The cord is 3 meters long which will allow for greater coverage as well.

## TYPE 1: MED-Y-LEAD-6U1

- TYPE 1 : Stereo Plug – Tip & Ring
