

HD180-LPG

Heavy Duty Ride-on Industrial Sweeper

BIG, BOLD & SUPERIOR

Built for tough industrial applications, the HD180 features a self-levelling spring-loaded brush that cleans across varying surfaces without manual adjustment.

With a 1500mm sweeping path, expandable to 1800mm with an additional side broom, it covers large areas quickly. Its direct throw sweeping system and 500L waste hopper provide effective dust control and efficient debris collection for consistent cleaning results.

HD180-LPG

From massive sweeping path to proven dust control technology the HD180 power sweeper has everything you're looking for in a heavyduty floor sweeping machine.

Technical Specifications

HD180-LPG

Cleaning Width	1500mm sweep path with main broom and one side broom	Variable speed	0-14Km/hr
Engine	4 cylinder, 36 HP water cooled Kubota diesel engine with Cyclone pre-filter and Donaldson air cleaner	Machine Dimensions	2442 (L) x 1570 (W) x 2190 (H)mm
Waste Hopper Bin Capacity	500L with hydraulic high dump	Weight	1340kg
Filter Type	10.5 m ² green polyester filter		

Features & Benefits

1 DIRECT THROW SWEEPING SYSTEM

Pitches debris directly into the hopper for efficient collection.

2 10.5M² WATER-RESISTANT GREEN POLYESTER FILTER

Large filter surface area delivers strong dust control and lasts up to five times longer than standard filters.

3 ELECTRIC FILTER CLEANER

Simple switch activation automatically shakes dust from the filter into the waste hopper.

4 500L WASTE HOPPER WITH HYDRAULIC DUMP

Hydraulic lift height of 1520mm allows easy emptying and longer sweeping periods.

5 HYDRAULIC DIRECT DRIVE SYSTEM

Fewer moving parts reduce maintenance requirements and potential downtime.

6 HYDROSTATIC TRANSMISSION

Single foot pedal provides smooth forward and reverse control for easy operation.

7 SELF-LEVELLING SPRING-LOADED BRUSH SYSTEM

Maintains consistent cleaning across multiple surfaces without manual brush adjustment.

8 POWER STEERING WITH SOLID TYRES

Improves operator comfort and durability, while solid tyres prevent punctures and reduce maintenance.
