## PRODUCT CODES:

USB Floor Sensor Mat only: MED-FM-03-USB

USB Floor Sensor Mat & USB Y Cable (X = 1, 2, or 3): MED-FM-03-6U(X)

Indigo Care provides a New USB 2-Fold Premium Floor Sensor Mat that is designed for easier storage and trip-hazard. The USB connection is durable and robust with a low profile ensuring the cable is more secure and less vulnerable to breakages from external forces. Our floor sensor mat alleviates trip hazards, improves safety, and offers storage space to lessen any part's damage. It is manufactured from a heavy duty, easy to clean waterproof PVC vinyl with a textured slip reduction surface. It is designed to be placed on the floor at the side of the resident's bed providing coverage for the full length of a standard bed at 1220mm in length. Multifunctional, it can also be used as a chair sensor mat as the floor sensor mat is operable in a folded position and can be placed on a large chair or moved to the sitting area and placed in front of the resident's chair.

Unlike other floor mats, our Premium USB Floor Sensor mat is designed to work either with a USB-Y Cable or completely wireless with our USB Transmitter. The sensor mat's small storage compartment is for the cables and transmitters. The USB Y Cable is included with the hardwired USB floor sensor mat. The Y cable has a spare 6.3mm socket allowing the nurse call bell pendant to plug in as well so that either pressing the call button or standing on the mat will alert/trigger the nurse call system's alarm.

The Y Cable is detachable to reduce trip hazard and to provide an economical replacement cost if required.

## KEY SPECIFICATIONS:

- USB Connection
- Dimensions: 610mm X 1220mm X 6mm (24" X 48" X ¼")
- Electrical Resistance < 100 Ohm
- Black PVC Yoga Pattern
- Bottom: Black non-slip
- Weight Range of 30 kg – 200 kg
- 2-Fold Mat for Easy Storage
- Operable in a folded position (suitable for chair situation)
- Wired Connection- USB Y-cable (included)
- Wireless Connection: RRU (Wireless Receiver) & USB-RTU (Wireless Transmitter). The RRU & USB-RTU can be purchased as Kit set or an individual unit. Refer to Wireless Set-up Procedure for connection/programming details.

## PRODUCT ACCESSORIES:

Included with the Floor Sensor Mat:  
1 x USB - Y Cable: U1, U2, or U3

Wiring Configuration:

- U1-Tip & Ring
- U2-Mono
- U3-Tip & Sleeve
