Regular Duty, Sealless Combination Tool

• Uses the **highest quality, advanced and reliable tools** in the industry. Lower operational costs at our manufacturing facility allow us to provide our partners with high quality tools at best prices amongst our competitors.

MUL-16 Benefits

Advanced

Reversible dies for double life and triple-notch, highly efficient sealless joint.

Reliable

Eliminates the need for a separate tensioner, sealer and cutter.

Affordable

Extremely cost-effective solution for steel strapping applications.

Lightweight

Small footprint for universal operation. Weighs just about 3.4kg.

Ergonomic

Simple, ergonomic design minimizes operator fatigue.

Safe

High quality steel frame to minimize damage due to accidental drops

Technical Specifications

Seal Type	Triple Notch, sealless joint type
Footprint	L:114mm W:56mm
Tool Weight	3.4kg
Model Number	3-MUL-16
Maximum Strap Thickness	RD Strapping: Up to 0.63mm HT Strapping: Up to 0.5mm
Style	Sealless Tool
Strap Width	Adjustable - 13/16/19mm

Applications

Widely used by **manufacturing, metallurgy and transportation industries**, specifically designed for use with high tensile steel strapping.
