

1-4 TONNE SCISSOR LIFT TABLES

High Lift Scissor Lift Tables

OVERVIEW

Optimum's High Lift Scissor tables have the capacity to lift loads up to 4.2m high with our standard models, with custom units for higher lifts. With a very compact foot print, stable base frame and multiple scissors you acquire a high-lift table suitable as a work platform, goods elevator, pallet elevator or pallet stacker and is also an excellent solution where there is a need for handling goods from different floor levels.

The high lift scissor lift range are an ideal addition to a customised palletising station, raising and lowering goods safely & efficiently.

FEATURES

Suitable for loads up to 4000kg

- ✓ Industrial quality 3 phase hydraulic power pack
- ✓ Heavy duty scissor frame with self lubricating bushes on pivot points and safety descent bar on upper platform
- ✓ Heavy duty cylinders with drainage systems and echeck valve to stop the lift table lowering in case of the hose bursting
- ✓ Removeable lifting eye to facilitate handling and lift table installation including safety clearance to prevent trapping
