

Container Wheel Set with Landcruiser Hubs (Sold as Pair)
EW-CW-LC

Shipping container wheels / castors allows you to easily move a shipping container on flat surfaces. Connects directly to the bottom corners of your shipping container. Each has a 2 tonne WLL so giving a combined 8 tonne WLL when using four castors

Features:

- Castor Wheels for moving shipping containers on concrete or bitumen surface.
- Locks into corner castings of shipping container
- Locking Castors
- All castor wheels swivel
- 2000kg rating per castor (8000kg combined with 4 castors).
- Sold as singles (price per unit)

Shipping container wheels / tyres make it easy to move shipping containers over slightly uneven terrain. Connects directly to the side corner castings of your shipping container

- Locks into side corner castings of shipping container
- Supplied with mounting bracket and Land Cruiser Hubs only (wheels and tyres sold separately)
- Sold as pairs (2)
