## WALK-BEHIND SCRUBBER

The ASC T55 is a reliable and dependable 51cm floor scrubbing machine. It is designed for cleaning small to medium size facilities. The machine is fitted with large batteries to extend running time and cleaning productivity.

### FEATURES

- **Anti-collision wheels** are added on both sides of the squeegee to buffer any impact to the machine and minimize operator damage.
- **Quiet Operation:** The ASC T55 comes standard with a vacuum motor mute system. This feature is particularly useful in the hospital and office cleaning environment where minimal noise is mandatory.
- **The ASC T55 is fitted with an infinite speed control system.** This allows for safer operation and greater operator comfort and handling.
- **Quick change squeegee system.** All 4 sides of squeegee can be rotated prolonging squeegee life which reduces maintenance costs.
- **Large 55 Litre solution tank** and 65 litre recovery tank greatly reduces emptying/refilling time.
- **Fitted with large capacity 100 AMP batteries** to ensure 3.5 hour continued run time. New generation AGM batteries eliminate battery issues associated with most scrubbers on the market.
