Full Kit: Receiver Unit, RJ11 Bed Mat & Transmitter: MED-B365K-W6T(X) or MED-B365K-W3T(X)

*Indigo Care provides a New & Improved pressure sensitive Premium Bed Sensor Mat that is more comfortable & less noisy for the user. The mat's thickness has increased to 12mm providing a softer touch and feel for the user at the same time ensuring the noise created due to contact is quieter. This improved Bed Mat will be a huge hit with your residents and staff! **MORE COMFORT, LESS NOISE***

Our Bed Mats are designed to immediately alert staff should a resident leave their bed which is most useful to residents who are at risk of falling out of their bed, or those who require assistance in arising from the bed. The transmitter is an exclusive ID encoded RF Transmitter which communicates with the Wireless Receiver (RRU) or Dual Function Universal Call point. It allows the bed sensor mat to wirelessly transmit an alarm to the call point. Simply connect the Transmitter to the bed sensor mat, then program the Transmitter to the RRU by following the instructions printed on the Receiver box. The sensor mat will now trigger the call point when activated within the transmitting area. It can be integrated to most nurse call systems. (Note: Transmitter and Bed mat can be ordered separately)

KEY SPECIFICATIONS:

Bed mat

- Dimensions: 770mm X 495mm
- Connection: RJ11 on 500mm curly cord
- Electrical resistance < 500 Ohm
- White PVC, Thickness 12mm
- Warranty: 12 months

Transmitter

- Connection: RJ11 socket
- No External Antenna
- LED battery indicator
- Transmits up to 30m (line of sight)
- Frequency: 433.92MHz
- Uses a 3V battery-CR2032
- Warranty: 12 months

CORDLESS RANGE:

- Cordless Receiver (RRU)
- Cordless Transmitter (RTU)
- Cordless Under Mattress Sensor Mat
- Cordless Floor Sensor Mat
- Cordless Cushion Sensor Mat
- Cordless Chair Mat
- Cordless Waterproof Neck Pendant
- Cordless Waterproof Wrist Pendant
- Cordless PIR Motion Sensor
- Cordless Suspense Point
- Cordless Doorway Sensor
