

MUSCLE STIMULATION

SP 8.0

RECOVER FASTER, ENHANCE PERFORMANCE, STRENGTH/ENDURANCE, HELPS AVOID INJURY AND MANAGE PAIN

Our top of the range Wireless stimulator designed for athletes who train and compete on a regular basis. SP 8.0 includes our brand new MI-Autorange feature that continually brings you better results.

MI-TECNOLOGY

MI-SCAN

Scans the muscle and automatically adjusts stimulator parameters to the user's physiology.

MI-ACTION

Optimizes session effectiveness by combining voluntary contractions with electrostimulated contractions, giving total control over the workout.

MI-TENS

Makes it easier to adjust stimulation levels for pain relief programs to ensure optimal results.

MI-AUTORANGE

A brand new feature that enables the Complex module to determine the most appropriate level of stimulation automatically.

TECHNICAL FEATURES
