

MAC45 Diesel Screw Compressor

1100 LPM - Free Air Delivery

MAC45

Product Description

Peerless are proud to announce a range of engine powered Rotary Screw Compressors. We have always been involved with screw compressors and have now designed our own engine driven units to suit the demands of the Australian market after much consulting.

Built and manufactured in Australia we pride this range on its reliability and quality to last in the tough Australian Conditions. Yanmar

and Honda are both world renowned in their production of engines with great 3 year warranties to back it. All Honda and Yanmar motors built for the Australian market are compliant with strict emission standards. The Air end is a german made Rotorcomp EVO 2 which has the ultimate efficiency, low noise, at the highest quality standards.

Features & Benefits

- Genuine Yanmar Diesel Motor - Electric start standard
- Conrader certified safety valve with certificate (made in U.S.A)
- Manns Filtration - Oil/Air separator & Oil Filter
- Conrader Idle control system - save fuel & money
- Belt drive screw compressor
- Fan forced air cooling system
- 0 - 116PSI within 6 seconds
- Air Receiver inbuilt with roll cage design
- 4M Battery leads provided. Battery not provided
- Designed and built in Bendigo, Victoria
- Full range of spare parts & service kits available!
- Fuel pump available - save carrying fuel!

245KG

PUMP UP TIME TO 100PSI:

1300MM X 600MM X 770MM

WARRANTY

1 YEAR PUMP / 3 YEAR YANMAR

Specifications

CODE	MODEL	AIR END	FREE AIR DELIVERY	MAX PSI	MOTOR	TANK (L)
MAC45D	MAC45D DIESEL	ROTOR COMP	1100 LPM @ 8 BAR	175	YANMAR L100	20L

Technical Data

STARTING SYSTEM	CHARGING SYSTEM	FUEL CONSUMPTION	DRIVING TYPE
