Wheels:

- **Polyurethane Wheels:** a softer compound that distributes the weight more evenly over the floor and are non-marking.
- **Front double Wheels:** are mainly used for heavy loads, these wheels handle more pressure.
- **Black Large Wheels:** allow the user to tilt the machine back.
- **Mid Wheels:** allow use to roll the machine when fold up.

Mitaco has national sales and distribution capabilities, our sales office and warehouse is located in Brisbane. Large inventory holdings enable fast-track dispatch of stock orders. This combined with an easy to use online ordering system makes the delivery of stocked products simple, fast and reliable.
