ENSURE DURABLE AND RELIABLE HIGH-QUALITY WELDS WITH THE NEXT GENERATION WELDING TORCH

- Long, cost-efficient lifetime
- Two value levels (Series 5 and 8) available with gas- and water-cooled versions
- IP5X Protected against dust and humidity
- Improved handle grip features and shape for better ergonomics
- Built-in LED work light illuminates the area around the contact tip (Series 8)
- New lightweight on-torch remote control options
- Redesigned and patented ball-joint cable is optimized for smoother wireline and reduces wrist load
- Over 200 improvements made to the previous version (GX-series)
- Compatible with all GX-series consumables
