

## Adjustable Load Skates- 6, 12 Or 24T Capacity

Industrial Adjustable Moving Skates- available in 6,12 or 24T Capacity.

### Features

- Shifting Skates are used wherever heavy objects need to be moved.
- Consists of 2 adjustable skates which are connected by 2 steel rods making one skate
- The skates are maintenance free and are fitted with handles for ease of carrying and positioning.
- Loads can be lifted with either a roller crowbar or a jack which allows the skate to be easily positioned.
- The platforms of the skates are fitted with a rubber surface which helps stability and protects objects being moved.
- The large diameter sealed nylon rollers ensure ease of movement and spread the load, protecting floors damage by high point load points.
