

Renewable Energy

Solar PV and Off-Grid Energy

SEAROSE
ENVIRONMENTAL

Solar energy solutions for business. Small scale (up to 100kW) available and power generation (above 100kW) solutions available. Leasing a property? No problem! We can provide power purchasing agreement technology to benefit business owners and property owners. Our design experts will design a customised solution and maximise your return on investment and reduce your carbon footprint. See available promotions.

Off-grid and hybrid battery power storage solutions. Applications for remote locations, portable plant, backup power and reduced grid reliance.

Hydrogen energy solutions available for large-scale energy applications.

Call us for a free quotation and energy audit.

Benefits for both landlords and tenants

Energy savings

Reduce reliance on the grid

Go completely off-grid
