## INDUSTRIAL GRADE PUSH SWEEPER

### ASC J3 Industrial Push Sweeper: Revolutionizing Dust Suppression and Cleaning Efficiency in Australian Heavy Industry and Construction.

Experience the ultimate in dust suppression and cleaning technology with the ASC J3 Industrial Push Sweeper, uniquely designed for Australian heavy industry and construction environments.

#### Unbeatable Dust Suppression and Cleaning Performance

The ASC J3 features:

- Innovative dust control filter that captures fine dust particles, leaving your floors clean and dust-free.
- Dust Suppression Water Misting System, which sprays a fine water mist onto the floor prior to sweeping, virtually eliminating 99.9% of airborne dust.
- Heavy-duty design and industrial-grade steel chassis for unmatched durability.
- Advanced sweep and vacuum functions, tackling heavy debris including concrete, mortar, tiles, wood, glass, metal, paper, leaves, and tyre dust.

#### The ASC J3 is designed to deliver high efficiency and reliability, with:

Low maintenance requirements (no electricity or batteries required).

High efficiency cleaning, covering more area in less time (sweeps 10 times faster than a conventional broom).

### FEATURES

- 100% dust suppression for a cleaner, safer workplace.
- Low maintenance and high efficiency
- High efficiency (cleans more area in less time)
- Steel Chassis industrial metal frame, with rust resistant hoppers front and rear and adjustable handles.
- Innovative dust control filter and Dust Suppression Water Misting System
- Unbeatable cleaning performance and simultaneous sweep and vacuum functions
- Sweeps more than 10 times faster than a conventional broom

TECHNICAL DATA	ASC J3
SWEEPING PATH	700MM
WORKING EFFICIENCY	3800M2/HR
HOPPER CAPACITY	45L
MEASUREMENTS	880MM X 800M X 390MM
DRIVE	MANUAL
PACKAGING SIZE	29KG
GROSS WEIGHT	25KG

#### DUST FILTER

Dust filter to prevent airborne dust while sweeping.

#### FRONT SIDE BROOM

Oversized side broom for easy cleaning of corners and edges.

#### WATER TANK

Water Suppression System features a water tank and powerbank to eliminate airborne dust while sweeping.

#### WATER SPRAYING SYSTEM

Adjustable water spraying system for side broom.

#### FRONT AND REAR HOPPER

Rust free front and rear hoppers increases productivity and ensures a better overall sweep.

#### COMPACT SIZE

Compact size, can fit through any standard doorway.

#### BUILT IN DUST FILTER AND WATER SUPPRESSION SYSTEM

A cutting-edge walk-behind sweeper equipped with an innovative dust control filter and water suppression system.

**WATER TANK AND POWER BANK**

**ADJUSTABLE HANDLES**

**SPRAY WATER NOZZLES**

**STEEL FRAME**

### **APPLICATIONS**

The ASC J3 is perfect for dusty warehouses, construction sites, underground car parks, and outdoor applications.

### **SURFACES**

Ceramics, marble, cement, concrete, linoleum, non-slip surfaces, tiles.

Join the ranks of satisfied businesses that rely on ASC sweepers for their heavy-duty cleaning needs. Invest in the ASC J3 Industrial Push Sweeper today and discover a cleaner, safer, and more efficient workplace.
