

# HEM-907 Professional Blood Pressure Monitor

DAVHEM907KIT

Pole Mounting Kit

Wall Mounting Kit

Mobile Stand

### Accurate and reliable

Complies with AAMI\* standards for accuracy in automatic blood pressure measurement

### Easy for operation and training

With advanced fuzzy logic technology, the HEM-907 determines ideal cuff inflation level based on patient arm size and blood pressure fluctuation. Simple push button operation and automatic deflation speed makes training clinical staff fast and easy

### Dual measurement mode

AUTO Mode: the oscillometric measurement method

- Cuff automatically inflates to the optimal pressure according to patient's condition

MANU Mode: the auscultation measurement method, using a stethoscope

- The unit measures blood pressure with the use of a stethoscope

### Quiet, ideal for clinical environment

The HEM-907 operates quietly reducing stress on patients and clinical staff; perfect for night time use by your patient's bedside
