EXPAND YOUR POSSIBILITIES

Easy model

WIRELESS COMMUNICATION

ENERGY SELF-SUFFICIENT

NETWORK CONNECTED

We have rethought the way we design and develop our products. Today, our marking solutions are the result of direct customer feedback across a wide range of applications.

Portable use
Production area

1.

Movement of the operator in the workshop

2.

Marking of medium to large, heavy or difficult to access parts

3.

Possibility to create multiple marking areas in the workshop

Electromagnetic dot peen technology

■ **Indent the material** through a succession of impacts that form a permanent mark

■ **On all types of part** up to a hardness of 63HRC

MARKING HEAD

Embedded intelligence designed for Industry 4.0

Energy self-sufficient
22V lithium ion battery

Light to deep
marking, moderate
use

Deep
marking,
intensive use

To ensure continuity of
production in case of low
battery

5 in 1 support foot

1. Marking on small and large cylinders
with two pairs of locating V's

2. Positioning support
with support guide

3. Magnetic support
with magnets

4. Marking on
flat parts

5. Non-slip-foot

Storage dock

- **Head support** with workbench mounting option
- Stylus, springs and support guide **storage**
- **Preventive maintenance:** checking the condition of the spring and the diameter of the stylus

+ Customizable
120x60 support foot

HANDLING IN THE AXIS

360° USE

FROM 2.5 KG

ILLUMINATED
MARKING AREA

OLED screen

Real-time information

Battery charge, network coverage, current marking files...

Robust

TECHNICAL PLASTIC SHELL

PROTECTIVE BUMPERS

Wireless communication

between marking head and controller

Freedom of movement **within 10m**

UNIT CONTROL

Compatible with all environments

10" TOUCH SCREEN IN TEMPERED GLASS

DISPLAYED FROM THE HEAD THANKS TO THE RFID

3 USB ports

Connection to keyboard, code reader (1D and 2D) and USB stick

Network connection

data exchange via the Ethernet port

220V power supply

VESA 100 fixings

Universal mounting that allows a range of control box fixing solutions

2 SIZES OF MARKING WINDOW AVAILABLE

EASY 60
60*30 mm

EASY 120
120*60 mm

SOFTWARE

Intuitive: marking within 3-clicks

Intelligent software developed by Technomark

- **Ergonomic** and easy to use
- **Visualisation** of the marking area on the screen
- **Predictive maintenance** module
- Real-time **marking information**
- **Operator mode** and **administrator mode**

Licenses pack

- **USB Production Tracker license**
Export of marked data
- **Font creator license**
Creation of custom fonts
- **Custom HMI license**
Customisation of the dashboard and OLED screen
- **RFID log on head or control box license**
Badge access
