

JUSTRITE DANGEROUS GOODS & SAFETY STORAGE CABINETS

FLAMMABLE STORAGE CABINETS

Flammable Safety Storage Cabinets provide a safe, close-by, secure and time-saving method for storing all types of dangerous chemicals and help you to maintain good housekeeping practices. All Justrite cabinets are fire tested to comply with the FM rating, something no other cabinet sold in Australia can claim, they also not only comply, but exceed Australian Standard AS 1940. They help companies by providing product near to the workplace thus avoiding the time consuming and often risky practice of collecting from an outside storage facility.

- Fully welded construction - 1.2mm steel - Double wall - 40mm thermal barrier
- Superior electrostatic high gloss powder coat paint finish / Dual vents with built in flash arresters
- Close fitting, sequential self closing and latching doors / 3 point locking mechanisms
- Leakproof fully welded 150mm deep containment sump / Shelves with built in troughs to contain spills
- Adjustable shelf height increments to maximise space storage
- Adjustable levelling feet to prevent doors binding
- Fire tested, FM Approved exceeds AS1940 compliance

Safety Can Storage
CAT NO: AU25602
 3 shelves / Capacity 350 Litre
 15 x 20 Litre Drums

Safety Can Storage
CAT NO: AU25452
 3 shelves / Capacity 250 litre
 9 x 20 Litre Drums

Safety Can Storage
CAT NO: AU25302
 2 shelves / Capacity 160 litre
 6 x 20 Litre Drums

AU25304 & AU25308
Slim Line Storage Cabinets
Single Door
 Capacity / 110 & 170 litre

COMPAC SAFETY CAN STORAGE

Under Bench Storage
CAT NO: AU25748
 2 shelves / Capacity 100 Litre

Compac Storage
CAT NO: AU25714
 2 shelves / Capacity 30 Litre

DRUM SAFETY STORAGE

Drum Storage
CAT NO: AU25701
 207 Litre Vertical Drum
 2 Door with Rollers

Drum Storage
CAT NO: AU25662
 207 Litre Horizontal Drum
 2 Door

CORROSIVE SUBSTANCE STORAGE CABINETS

Corrosive Substance Storage Cabinets have a Polyethylene tray on each shelf to collect any accidental spillages. Designed to withstand fire these cabinets provide a safe environment to store most corrosive chemicals. If you need to store chemicals such as Phenol, Nitric Acid, Sulphuric Acid or other substances with highly corrosive vapours, we suggest you look at the all Polyethylene Cabinets.

INNOVATIVE SOLUTIONS FOR THE HANDLING AND STORAGE OF DANGEROUS GOODS

Justrite Dangerous Goods Storage Cabinets — Features & Benefits

Fusible links hold doors wide open and melts at 74°C for automatic closure (on self-close models).

Patented concealed self-close mechanism provides obstruction free access to top shelf space. Self-indexing doors guarantee they will close in sequence and assure a tight closure from top to bottom (on self-close models).

Rounded safety corners on doors reduce accidental nicks or cuts and potential hand injury.

Haz-Alert™ Reflective labeling provides high visibility in the dark under fire conditions or power outage when illuminated by a flashlight beam. Patent Pending.

Minimal air-gaps provide better protection.

Double wall thermal barrier. 1.2mm sheet steel thickness with 40mm wall spacing.

Easy close, selflatching doors.

Fully-welded (not riveted) construction holds squareness for longer life, offering greater protection in a fire since air gaps are reduced.

Continuous piano hinge provides smooth closure.

Built-in grounding connector (on outside side panel) for easy grounding.

Dual vents with builtin flame arresters strategically placed at bottom and opposite top are welded, not screwed in place.

Durable and chemical resistant, hybrid leadfree powder coat paint finish, inside-and-out, retains high gloss look and minimizes the effects of corrosion and humidity.

Adjustable leveling feet for stability on uneven surfaces.

Welded shelf hangers interlock with shelf to offer maximum "no slip" stability... and no flimsy brackets to lose.

Stainless steel, three-point bullet self-latching system provides easy, fail-safe, positive door closure with increased heat resistance.

Exclusive U-Loc™ Padlockable Handle. Optional padlock allows for extra security and keycoding multiples for convenient access. Flush paddle handle with slip resistant grip offers easy fingertip operation and reduces dangerous "catches" from passing traffic. Double key set included for keyed lock. Patent Pending

Exclusive SpillSlope™ safety shelves direct spills to back and bottom of leak proof sump. Heavy-gauge galvanized steel shelves are bi-directional and easily adjust on 76mm centers for versatile storage. Each cabinet is provided standard with 150 mm deep sump to contain spills or leaks within the cabinet.

DOCUMENT STORAGE BOXES

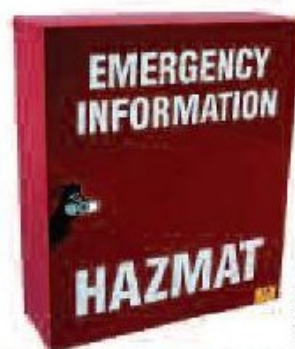

23303

Conveniently stores and protects important papers at worksite. Ideal for MSDS sheets and operating guides for all kinds of equipment.
