

## AIR 201

# Air powered heavy duty industrial vacuum cleaner for industrial sanding and shipyards

**AIR201 is an industrial vacuum engineered to fulfil a specific request of the market:  
recovery of large quantities of heavy material and its easy handling.**

Powered by a powerful air compressed suction unit and equipped with a butterfly discharge system, AIR200 is ideal for steel / sandblasting industry, shipyards, metal surface preparation and generally all of those applications involving high quantities of heavy sand or debris. TECHNICAL ADVANTAGES of AIR201:

### Main Features:

- Great performances thanks to the powerful air compressed suction unit
- Multi Jet Venturi providing outstanding suction performances, even with heavy materials
- Large volume collection hopper (200 Litre capacity)
- Forklift intakes for easy handling and discharge
- Heavy duty butterfly discharge valve for complete and quick discharge
- NEW SELF CLEAN FILTER CLEANING SYSTEM

### MODELS AND DATASHEET

MODELS	AIR 201
Power (Voltage)	Air compressor
Pressure (bar)	6
Compressed air supply (NI/min)	2500
Internal diameter compressed air supply (mm)	10
Depression (mmH2O)	5000
Depression — continuous service (mmH2O)	5400
Airflow max. (m3/h)	590
Surface (cm2)	40,000
Filtration class — primary filter (IEC 60335-2-69)	M
Capacity (Litres)	200
Suction inlet diameter (mm)	50
Sound level — dB(A)	76
Dimensions (cm)	77 x 68 x 198H
