

JAY-5

Oxygen Concentrator with Continuous Oxygen of up to 5 litres per minute (LPM)

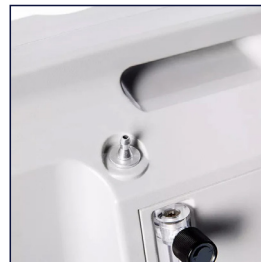

The Jay 5 stationary oxygen concentrator comes with medical-grade oxygen concentration of >90% and above. It contains four flexible castors making it suitable to move in any direction safely and at your convenience. It supports 24 hours use, is energy efficient, intelligent, quiet & compact.

Easy Access Consumables

Fingertip Oxygen Controls

Strong cannula ports

Sleek Simple control display

- Easy to Read LED Display
- Intelligent Alarms & Timers
- 93% ($\pm 3\%$) Oxygen Purity
- Continuous Operation (24h)
- 0.5 to 5 Litres Per Minute (LPM)
- Outlet Pressure of 6-10 PSI
- Lightweight & Low Noise ≥ 40 dB
- 15kg with compact construction
- Smooth castors for easy positioning
- Everything you need including humidifier bottle and nasal cannula

JAY-10

Oxygen Concentrator with continuous oxygen of up to 10 litres per minute (LPM)

The Longfian 10 Litre oxygen concentrator comes with an innovative big size LCD display that is convenient to view the operating parameters. It is built with a cooling system that consists of copper tube and aluminum fins that offer better heat dissipation ensuring the machine continuously works for 24 hours without overheating.

- Easy to Read LED Display
- Intelligent Alarms & Timers
- 93 % ($\pm 3\%$) Oxygen Purity
- Continuous Operation (24h)
- 0.5 to 10 Litres Per Minute (LPM)
- Outlet Pressure of 6-10 PSI
- Low Noise ≥ 50 dB
- 27kg with compact construction
- Smooth castors for easy Manouvering
- Everything you need including humidifier bottle and nasal cannula

EFFICIENT ZEOLITE

Good absorption, fast oxygen production, high concentration, long service life, and high stability

LIFE SPAN OVER 5 YEARS

Seamless aluminum tube has higher concentration and long service life.
